

Uncharting Safety & attendance in Iview

How to unchart safety and attendance in Iview?

1. Log into Powerchart
2. In order to unchart documentation done in Safety and Attendance with Timers for the patient, click on IView from left hand side blue menu. Under MHA Consolidated View, in MHA Safety and Attendance, Right click on the result and select "Add Result"

The screenshot shows the IView interface with a right-click context menu open. The 'Add Result...' option is highlighted with a red box. The background shows a table with columns for date and time, and a row for 'MHA Safety and Attendance' with a 'Behaviour' entry.

	17/Nov/2024	
	09:25	08:4
MHA Safety and Attendance		
Behaviour		Calm, n
Trigger		
Clinical Intervention		No imm

3. Select the Other option and made a comment stating "Charted in error".

Find Item Critical High Low Abnormal Unauth Flag

08:48		Behaviour
MHA Safety and Attendance		<input type="checkbox"/> Emotional upset/dysregulated mood <input type="checkbox"/> Passive resistance to instruction <input type="checkbox"/> Inappropriate/bizarre statements <input type="checkbox"/> Argumentative/disrespectful to others <input type="checkbox"/> Yelling/swearing/very loud talking to self <input type="checkbox"/> Interrupting/disruptive to others <input type="checkbox"/> Punching/kicking/spitting at air/objects <input type="checkbox"/> Inappropriate physical contact <input type="checkbox"/> Elopement focused behaviour or attempts <input type="checkbox"/> Minor property destruction <input type="checkbox"/> Self-harm statements <input type="checkbox"/> Verbal threats of aggression/intimidation <input type="checkbox"/> Major property destruction <input type="checkbox"/> Suicide behaviour/attempt <input type="checkbox"/> Physically aggressive/assaultive <input type="checkbox"/> Other <input type="checkbox"/> Off unit <input type="checkbox"/> Eyes Closed Respiration Even and Regular
Behaviour		<input checked="" type="checkbox"/> Other
Trigger		Charted in error
Clinical Intervention		

4. Now it displays the added result, then sign this documentation.

		17/Nov/2024	
		08:49	08:43
MHA Safety and Attendance			
Behaviour			Other: Charted in error
Trigger			
Clinical Intervention			Other: Charted in error

5. After signing, this then shows two results in iView.

		17/Nov/2024	
		08:50	08:43
MHA Safety and Attendance			
Behaviour			Calm, not emotionally dysre... [2]
Trigger			
Clinical Intervention			No immediate intervention r... [2]

6. Right click on the result in Behaviour, and it displays the ability to Unchart but only for the result just entered, not the original from Safety and Attendance.

The screenshot shows the iView interface with a right-click context menu open over a result. The menu options include: Add Result..., View Result Details..., View Comments..., View Flag Comments..., View Reference Material..., View Order Info..., View History..., Modify..., **Unchart** (highlighted with a red box), Change Date/Time, Add Comment..., Clear, View Defaulted Info..., View Calculation..., Recalculate..., View Interpretation, Reinterpret, Create Admin Note..., Chart Details..., Not Done, Flag, Flag with Comment..., Unflag, and Unflag with Comment... The background shows a table with columns for 'Trigger' and 'Clinical Intervention', and a row for 'MHA SA Behaviour Calm, not emotionally dysregulated, 2024-Nov-17 08:43:33'.

7. Instead, select Modify, and this gives us the ability to modify the original result from Safety and Attendance.

TIP SHEET

9. This displays an error as you must select an option.

10. Select the Other option and add a comment of "Charted in error".

11. This then displays in iView.

		17/Nov/2024	
		08:52	08:43
MHA Safety and Attendance			
Behaviour			Other: Charted in error
Trigger			
Clinical Intervention			Other: Charted in error

12. After signing, this is what displays in iView for the results.

MHA Safety and Attendance			
Behaviour			Other: Charted in error [2] ▲
Trigger			
Clinical Intervention			Other: Charted in error [2] ▲

13. By right clicking on the result again, you can see the Unchart option and the new updated details for each result.

The screenshot shows a software interface with a list of results and a context menu. The list contains two entries: "MHA SA Behaviour Other: Charted in error, 2024-Nov-17 08:43:33" and "MHA SA Behaviour Other: Charted in error, 2024-Nov-17 08:43:00". The context menu is open, showing options such as "Add Result...", "View Result Details...", "Modify...", "Unchart", "Change Date/Time", "Add Comment...", "Clear", "View Defaulted Info...", "View Calculation...", "Recalculate...", "View Interpretation", "Reinterpret", "Create Admin Note...", "Chart Details...", "Not Done", "Flag", "Flag with Comment...", "Unflag", and "Unflag with Comment...". The "Unchart" option is highlighted with a red box.

14. If you select the second result, it then displays this window where you can select a reason for uncharting.
