

ORDERING RECURRING ALBUMIN

HOSPITAL INFORMATION SYSTEM (HIS)

INPATIENT PRESCRIBERS

A **Recurring Albumin** order is now part of the **Blood Derivatives** PowerPlan. It is a routine order for inpatients that is set to be given at the standard administration times for the selected frequency (daily, BID, etc.). Selecting the **Recurring Albumin Product** box includes both the product and transfuse orders in one.

- 1. Search for, select, and open the Blood Derivatives PowerPlan.
- 2. Once in the plan, scroll down to the *Recurring Albumin* section. Select the tick-box next to the product order. Then, right-click on the order and select **Modify**.

Recurring Albumin								
	Interpret of the second s							
	8		Recurring Albumin 25% 100mL P	roduct			Routine	
	IVIG				Modify			
	@9	1	TRANSELISE Derivative					
				The nee the	e Priority is set to I eded STAT, place a PowerPlan.	Routine. If al I single order	bumin is <u>outside</u>	

- 3. Select a *Frequency* (daily, BID, TID, QID).
- 4. The *start date/time* of the first dose will default to the <u>next standard administration time</u> for the date & frequency selected (See next page for a table of administration times). If the first dose is to start <u>after</u> the next standard admin time, specify this in the *date/time* field here.
- 5. Select a *Transfusion Duration* in the '*Transfuse Over'* field.
- 6. Select the *# of doses* to be administered, to a maximum of **9 doses**. If the patient still requires albumin after the max *#* of doses have been given (e.g. after three days TID), the recurring albumin will need to be re-ordered within the PowerPlan.

ORDERING RECURRING ALBUMIN

HOSPITAL INFORMATION SYSTEM (HIS)

7. Once the plan is complete, click 🐺 Initiate Now . The following alert will pop up to confirm the start times of the first two doses.

- 8. Click **Continue** to proceed (A) OR select *Modify First Dose Date/Time* (B) to change the timing of the first dose. (e.g. if you have ordered a single STAT albumin, and the start time of the first dose is too close)
- If you clicked Continue, proceed and <u>Sign</u> the PowerPlan.
 If you selected Modify First Dose/Date Time, you will return to the Order Details window. You can adjust the date as necessary, then proceed with ordering the plan.
