Work Step [20919]

Description: Place order from immunization(s) Component or through add Order (this would route as proposed order)

Future State: Ambulatory - Immunizations

Cerner Workflow ID: 54 (v. 20.0)   Client Workflow ID: 204

Last updated by Lezlie Leduc, Mar 21, 2024 12:20pm (UTC -5 hours)

Start/Stop [20824]

Description: Continue with patient visit

Swim Lane:

Role(s): Ambulatory Prescriber [Custom]

Department(s):

Security Position(s):

Work Step [20822]

Description: Place order from immunization(s) Component or through add Order

Method: MPage

Comments: Training- recommend these orders to be placed from a component so that the provider can see what immunizations are due at the time of order entry.

Orders available in Order Immunization window can be localized by client.

Decision [20897]

Description: Approve the proposed immunization order or place a new order for immunization(s) as needed
