Work Step [35258]

Description: Passive Screening is employed. As appropriate, complete Infectious Disease Risk Screening (IDRS) PowerForm

Comments: Passive screening is primary for clinic area.

Infectious Disease Risk Screening (IDRS) PowerForm to be completed per Enterprise wide policy as what clinics will complete. List to be determined as to who this applies to.

HDS - If yes to IDRS questions, send patient home, reschedule visit, and contact IPAC to assess before next visit.

Start/Stop [35215]

Description: No isolation indicated clinic appointment completed as appropriate

Start/Stop [35300]

Description: If yes to questions in IDRS PowerForm, send patient home, reschedule visit, and contact IPAC to assess before next visit.

System [35249]

Description: System order initiated by responses captured in the Infectious Disease Risk Screening PowerForm for isolation.

Comments: Manual order can be placed based on clinical assessment.

Work Step [35175]

Description: Place isolation order.

Comments: As appropriate a comment can be added to the ambulatory organizer.

Work Step [35294]

Description: Initiate Isolation Precautions based on IDRS PowerForm findings and/or patient signs/symptoms.

Start/Stop [35290]

Description: Isolation order will discontinue at the end of the visit for an ambulatory patient for ARI's

Future State: Ambulatory - Infection Control

Cerner Workflow ID: 347 (v. 11.0) Client Workflow ID: 1095
