Future State: Ambulatory - Laboratory (Performed Outside Health System)

Cerner Workflow ID: 65 (v. 14.0) Client Workflow ID: 208

Last updated by Lezlie Leduc, Jan 12, 2024 8:06am (UTC -5 hours)

Start/Stop [1737]

Description: Patient requires Laboratory tests

Decision [1740]

Description: Is the lab drawn in the clinic?

Work Step [1741]

Description: Place Future Order with:
Order for Future visit: "Yes"
Outside Lab: "Yes"
Nurse Collect: "No"

Method: PowerOrders

Comments: Modified MU Considerations:
More than 30% of laboratory orders created by the EP are recorded using
CPOE

Need to ensure Outside Lab is selected to prevent outside lab orders from being
sent to PathNet Work List.

Work Step [18097]

Description: Place Future Order with: Order for Future visit: "Yes" Outside Lab: "Yes" Nurse
Collect: "Yes"

Start/Stop [1748]

Description: Provider receives results to endorse in Message Center.

Value Impact: Patient Safety
Quality

Comments: Scanned results will not be able to be sent to patient portal.

Interfaced lab orders will complete when result interfaces into PowerChart.

Non interfaced lab orders completed outside of organization need process to track
order completion.

PCMH Considerations: Result Tracking

Cerner Workflow ID: 65 (v. 14.0) Client Workflow ID: 208

Last updated by Lezlie Leduc, Jan 12, 2024 8:06am (UTC -5 hours)

Role(s): Clerk
Ambulatory Nurse

Department(s):
Security Position(s):

Work Step [18100]

Description: Activate Future Lab Order. Collect specimen, label, and package with requisition.

Document [1742]

Description: Complete MHLTC Lab Requisition form. Print and provide requisition to patient.

Comments: Order needs to remain in a future status until result is received.
Work with client to make sure requisitions are designed and working correctly. CCL Required to print requisitions for Future Orders.

Work Step [18102]

Description: Complete nurse collect task and deliver specimen to the lab.

Work Step [18041]

Description: Patient lab drawn and resulted at outside lab.

Work Step [18030]

Description: Clinic receives fax or paper results. Also in clinical connect. (Oncology Lifelab results will be received via message centre)

Work Step [18044]

Description: Scan paper results into ordering provider's Message Center or receive results via WQM

Step Impact: Training

Comments: Change author to Provider in order to route automatically.

Alternative: Utilize Work Queue Manager if available

Work Step [18032]

Description: Activate and complete Future Order

Method: PowerOrders

Comments: Activate on clinic encounter that lab order originated from.

Future State: Ambulatory - Laboratory (Performed Outside Health System)
