Work Step [27999]

Description: Call DI department to confirm availability and communicate priority of the exam.

Decision [28001]

Description: Can DI department accommodate same day exam?

Work Step [27772]

Description: Place radiology order and select Future Order "No"

Method: PowerOrders

Step Impact: Regulatory

Regulatory Details: Medicaid Promoting Interoperability

Comments: These orders are in a Radiology Catalog Type

Future orders are not tied to specific encounters, so order on the clinic encounter for the same day should have the future order field filled as No.

Not Scheduled may not be available on certain radiology exams (example: XR).

Physician enters diagnosis code and associates it with the order and the diagnosis description populates in the RFE Field.

Medicaid Promoting Interoperability: More than 60% of radiology orders created by the EP are recorded using CPOE. Professional fee captured via order.

Work Step [17439]

Description: Direct patient to Radiology or Diagnostic Study area

Decision [27971]

Description: Will the ordering physician be dictating an interpretation?

Work Step [27947]

Description: Prescriber dictates the interpretation as a part of their Clinic Note.

Future State: Ambulatory - Radiology/Diagnostics (Same Day)

Cerner Workflow ID: 14931 (v. 11.0) Client Workflow ID: 229

Last updated by Lezlie Leduc, Jan 29, 2024 10:08pm (UTC -5 hours)

Start/Stop [27994]

Description: Report will post to the patients chart, and the Prescriber will be notified via Results in Message Centre.
