TestBuilder Script(s):

Cerner Workflow ID: 19025 (v. 7.0)

Client Workflow ID: 235

Workflow Notes: This workflow outlines the basic steps for requesting surgical procedure appointments from the Ambulatory setting.

The Model recommendation is to utilize the Surgery Request Workflow MPage com

ponent, but this workflow includes another available option as an alternative. Both options utilize Orders to Scheduling to generate a scheduling request, but the Surgery Request component streamlines the process for the surgeons.
