## CAPTURING SEX AT BIRTH

This guide aims to ensure accurate and efficient documentation of a patient's sex assigned at birth, providing essential data for clinical and historical reference, vital for delivering high-quality patient care. By following outlined steps, users will be able to enhance data integrity and support effective patient management within NHS.

1. Launch FirstNet and navigate to ED Quick Registration.
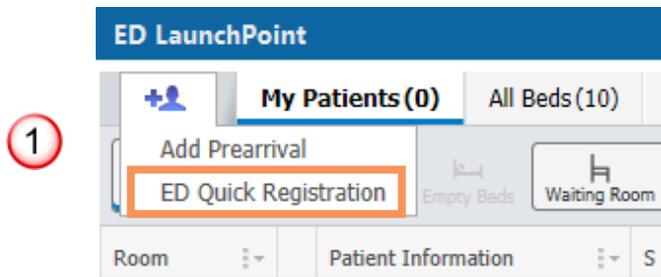

2. Enter the patient's information, such as first and last name. Click "Add Person".
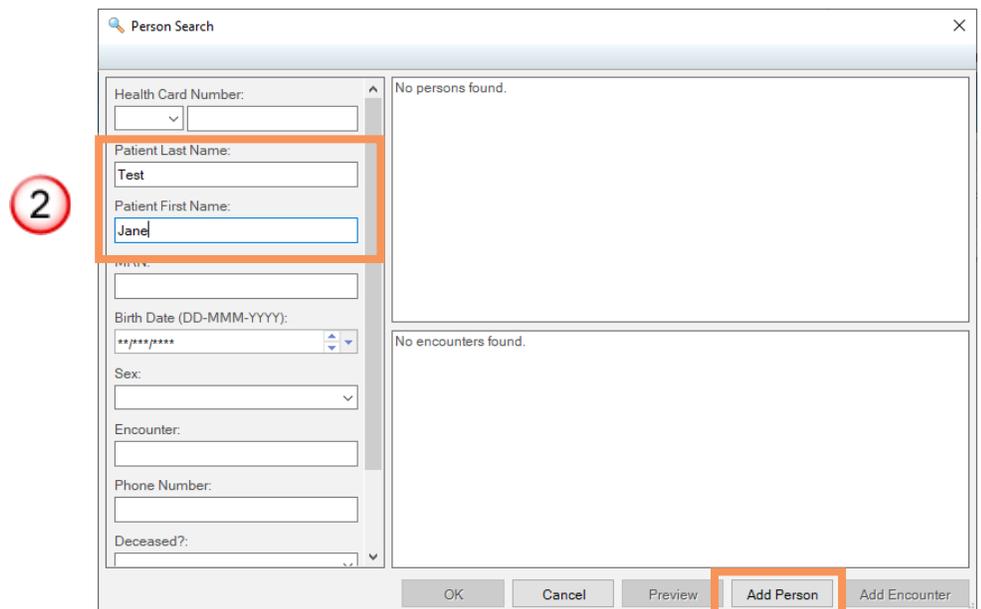

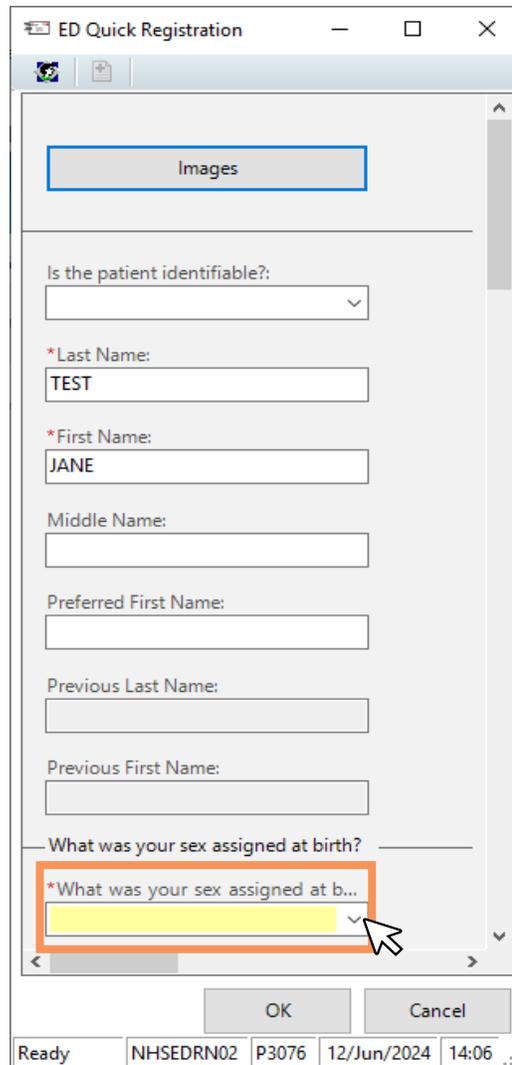

3. The ED Quick Registration window will appear. **Scroll down to locate the highlighted question, "What was your sex assigned at birth?".** Click the drop-down menu.

4. From the drop-down menu, **select the appropriate option** for the patient's sex assigned at birth. Continue with next steps to register patient.
