

### COMMUNICATIVE DISORDERS ASSISTANT (CDA) / SPEECH LANGUAGE PATHOLOGY (SLP)

#### Placing the CDA Screening Order:

- The CDA screening order will be placed by only the Speech Language Pathologist.

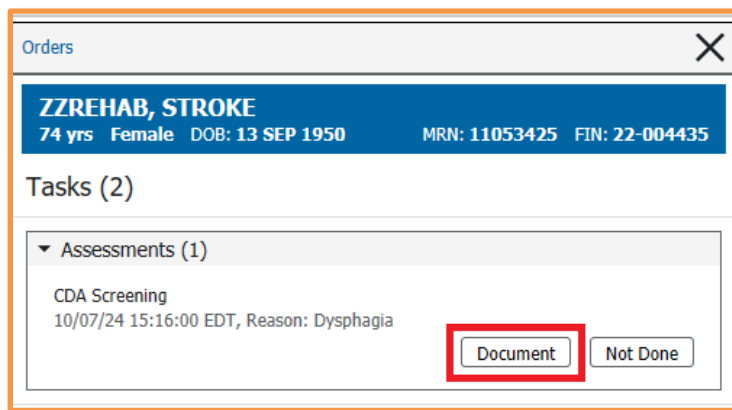

#### Accessing the CDA Screening PowerForm:

- The CDA will be assigned the CDA Screening Task within their Multi Patient Task List (MPTL)/Rehab Organizer.
- They can access the PowerForm by double clicking anywhere in the task line (MPTL) or by selecting Document (Rehab Organizer).

#### **MPTL**

Patient Reports Difficulty Hearing		
Patient has Hearing Aids and is Hearing Well		
Hearing Interferes with Participation in Therapy		
Blood Thinners		
Experiences Dizziness		
Infectious Disease or other		
Noise Exposure		
Other		

### Rescheduling a Task:

If a patient does not consent or is deemed by the treating therapist to be inappropriate for assessment, the end-user will reschedule the Assessment task within 7 days or 168 hours of the original Consult Order placement. This approach ensures the task remains in the Multi Patient Task List, enabling the end-user to complete the Assessment and attach the Assessment documentation to the Consult Order.

# CDA SCREENING

## HOSPITAL INFORMATION SYSTEM (HIS)

**\*Note:** a task can only be rescheduled via the MPTL; once the task is rescheduled, the task timer will reset. When rescheduled, these changes will also reschedule the tasks within the Rehab Organizer.
