

### INTERPROFESSIONAL REHAB

When a patient is set to be discontinued from caseload in an inpatient setting or discharged from caseload in an outpatient setting, the discharge related PowerForms will be accessed via **AdHoc**.

There are two options to document discharges from caseload.

- Discharge Summary
- Discharge Assessment
  - o **\*Note:** The Discharge Assessment will be the **PT/OT/SLP Inpatient/Acute Assessment** PowerForms for Inpatient Therapy. For Outpatient Therapy it will be the **PT/OT/SLP Outpatient Assessment**. The first most section has a required DTA to select the **Type of Assessment** of which “Discharge Assessment” is to be selected.

**\*Note:** Recreation Therapy does not have a Discharge Summary, instead they can utilize the Recreation Therapy Assessment PowerForms (Inpatient and Outpatient) and the Type of Assessment DTA to denote the Discharge Assessment.

# DISCHARGE DOCUMENTATION

## HOSPITAL INFORMATION SYSTEM (HIS)

The **Discharge SMART Goals** sections within these PowerForms contains an Ultra Grid that allows the therapist to populate each disciplines specific SMART Goals. The information filled into these Ultra Grids are not long Last Charted Value (LCV) but they are also connected to a Smart Template that exists on the **Case Managers Rehab and Complex Care Referral PowerForm**.

**PT/OT/SLP Discharge Summary PowerForm – PT/OT/SLP Discharge SMART Goals section:**

**PT Discharge SMART Goals**

Specific, Measurable, Achievable, Relevant, and Timebound (SMART) Goals are to be filled out only if Patient is being Discharged with Home Care Services or if Therapists are requesting further Inpatient and/or Outpatient Rehabilitation

PT SMART Goals

	PT SMART Goals
Goal #1	New PT SMART Goal
Goal #2	
Goal #3	
Goal #4	
Goal #5	
Goal #6	
Goal #7	
Goal #8	

**Case Manager Complex Care and Rehabilitation Application PowerForm – Rehab SMART Goals Information section:**

**Rehab SMART Goals Information**

Rehab SMART Goals

**Therapy SMART Goals**

PT SMART Goals  
 SMART Goal #1 PT: New PT SMART Goal(03/06/24 13:45:00)

OT SMART Goals  
 SMART Goals #1 OT: Testing SMART Goal #1 (18/04/24 12:24:00)

SLP SMART Goals  
 SMART Goal #1 SLP: Testing SLP SMART Goals (26/02/24 13:49:00)

\*\*\*\*The following Patient Status sections in this form are to NOT be charted on by Case Management. These sections pull in the last charted values from each Therapist group.

## HOSPITAL INFORMATION SYSTEM (HIS)

In the **Discharge Plan** section, there is a Rich Text DTA titled “Discharge Recommendations”. The information filled into this text box, will flow into the **Nursing Inpatient Discharge Instructions Dynamic Documentation** automatically. Each unique entry will be listed according to the rehab discipline it was submitted for.

### ***PT/OT/SLP Discharge Summary PowerForm –Discharge Plan section:***

Discharge Recommendations

To appear in discharge instructions given to patient

Segoe UI    9   

Discharge home with home care OT

### ***Nursing Inpatient Discharge Instructions Dynamic Documentation – Allied Health Discharge Information section:***

## Allied Health Discharge Information

PT Discharge Recommendations

07 August, 2024 12:44:00  
Discharge home with home care OT

OT Discharge Recommendations

07 August, 2024 12:50:00  
Home with home care OT

## HOSPITAL INFORMATION SYSTEM (HIS)

The signed and submitted Discharge Summary and Assessment PowerForms can be located in Documentation, Form Browser and Results Review areas of the patient's chart.

Within Results Review, there is a unique Flowsheet titled "Discharge Plan and Education" of which it pulls in unique DTA results from the different therapy disciplines.

The screenshot shows the 'Recent Results' section of the HIS interface. A dropdown menu is open, showing 'Discharge Plan and Education' selected. Below the dropdown, a table displays the following information:

Discharge Plan and Education		22/Oct/2024 13:56
<b>PT Discharge Plan</b>		
Discharge To, Anticipated	Home with home care services	
PT Status on Discharge		
PT Interventions to Date	Active exercise program, Endurance exe	

The screenshot shows the patient's menu in the HIS interface. The patient's name is ZZREHAB, CURTIS, Admin Sex: Male, and Code Status: <No Data Available>. The menu items are:

- Therapist View (Rehabilitation)
- Activities and Interventions
- Appointments
- Orders + Add
- Interactive View and I&O
- Medication List + Add
- Diagnoses and Problems
- Histories
- Allergies + Add
- MAR Summary
- Notes + Add
- Documentation + Add**
- Form Browser
- Results Review
- Clinical Media + Add
- Plan of Care Summary
- Growth Chart
- Patient Information
- Clinical Research
- Patient Preferred Pharmacy
