

STUDENT DOCUMENTATION

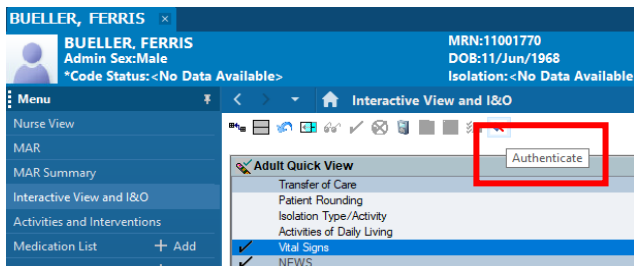

Student Documentation will now need to be authenticated in Powerchart.

Authenticating iView (flowsheet) documentation

1. After a student documents in iView, their documentation will have an icon indicating that the charting needs to be authenticated.

		04/Oct/2024	
		13:38	13:36
Vital Signs			
Temperature Oral	Deg C		36.5
Peripheral Pulse Rate	bpm		
Heart Rate Automatic	bpm		77
Respiratory Rate	br/min		18
Respiratory Effort		Normal	
SpO2	%		99
SpO2 Location		Hand, left	
SBP/DBP Cuff	mmHg		125/88
Mean Arterial Pressure, Cuff	mmHg		
Non-invasive Blood Pressure - ...	bpm		
Cuff Location		Upper arm, left	
Blood Pressure Method		Automatic	
Alert, Voice, Pain, Unresponsive		Alert and respons...	

2. Preceptors can authenticate by going into iView and clicking the authentication symbol. A review window will appear. When complete, the preceptor can sign to authenticate. The authentication symbol will then disappear from the documentation.

Authenticating Powerform (forms) documentation

1. After student documents and signs a form, a task will populate for the preceptor to review and validate. This is located under Activities and Interventions.

2. Double clicking the task will bring you to the powerform for review and signing. The task will then be completed.
