

Clerical Staff:

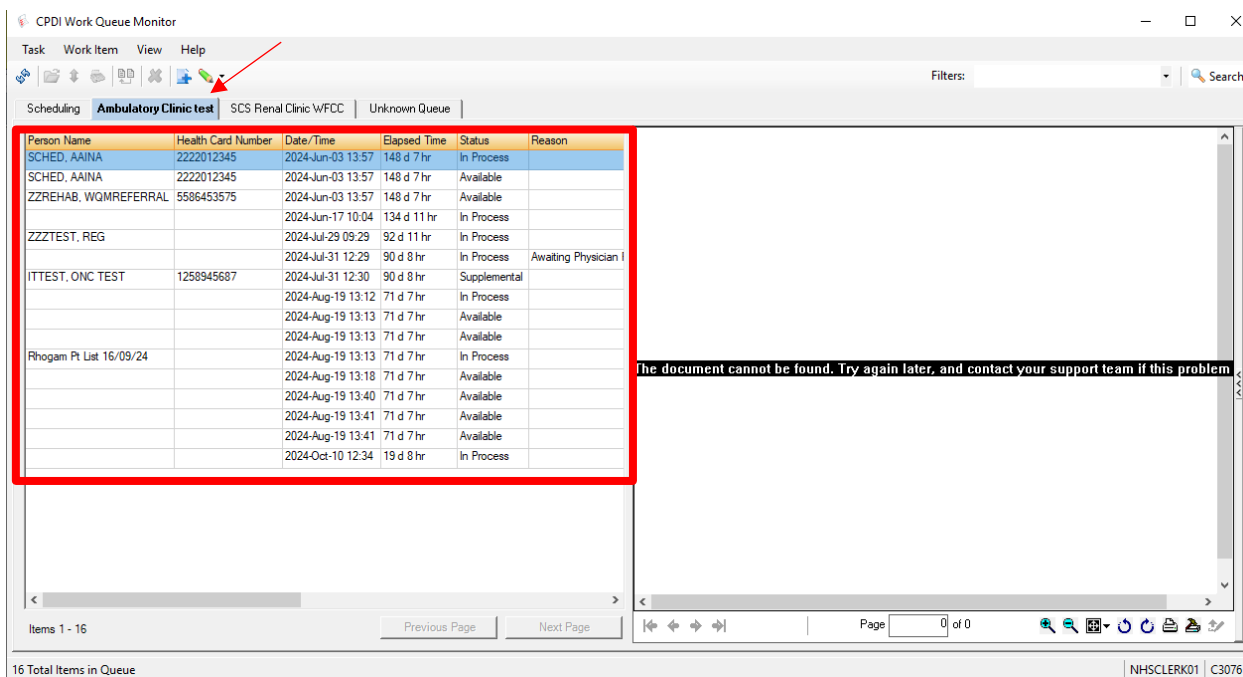

1. Navigate to **Work Queue Monitor**, this can be done two ways:
 - a. Through your **App Bar**, locate the purple icon with two pieces of paper.

- b. Through Powerchart you can open your **Scheduling Appointment Book**, within the appointment book locate the purple icon in the top banner bar.

2. When in Work Queue Monitor, select the tab corresponding to your department's queue (e.g., Ambulatory Clinic). You are now able to see all of your incoming faxes on the left window pane, they present in chronological order.

4. The **Add/Modify Work Item** window will now open. Within this window you will search the patient using the patient and magnifying glass icon in the top left-hand corner.

5. Search for the patient by entering the patient's details (last name, first name). Click search.
Note: The more information you enter, the more accurate your results.

*When you find the correct patient be sure to select **ALL ENCOUNTERS**. *

OK Cancel All Encounters

You will notice no MRN or FIN number will populate, this is intentional as we do not want to associate this referral with an encounter yet until it is accepted, this is just the initial intake.

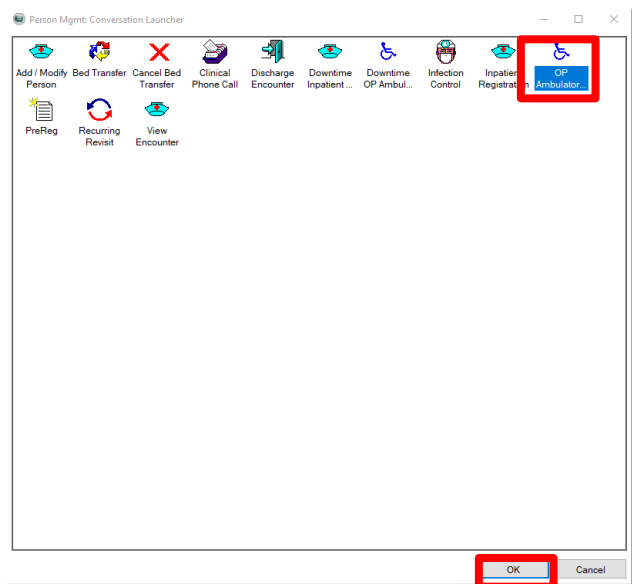

*****IF THE PATIENT IS NOT BUILT INTO THE SYSTEM*****

- Navigate to **Conversation Launcher** in your App Bar or in PowerChart

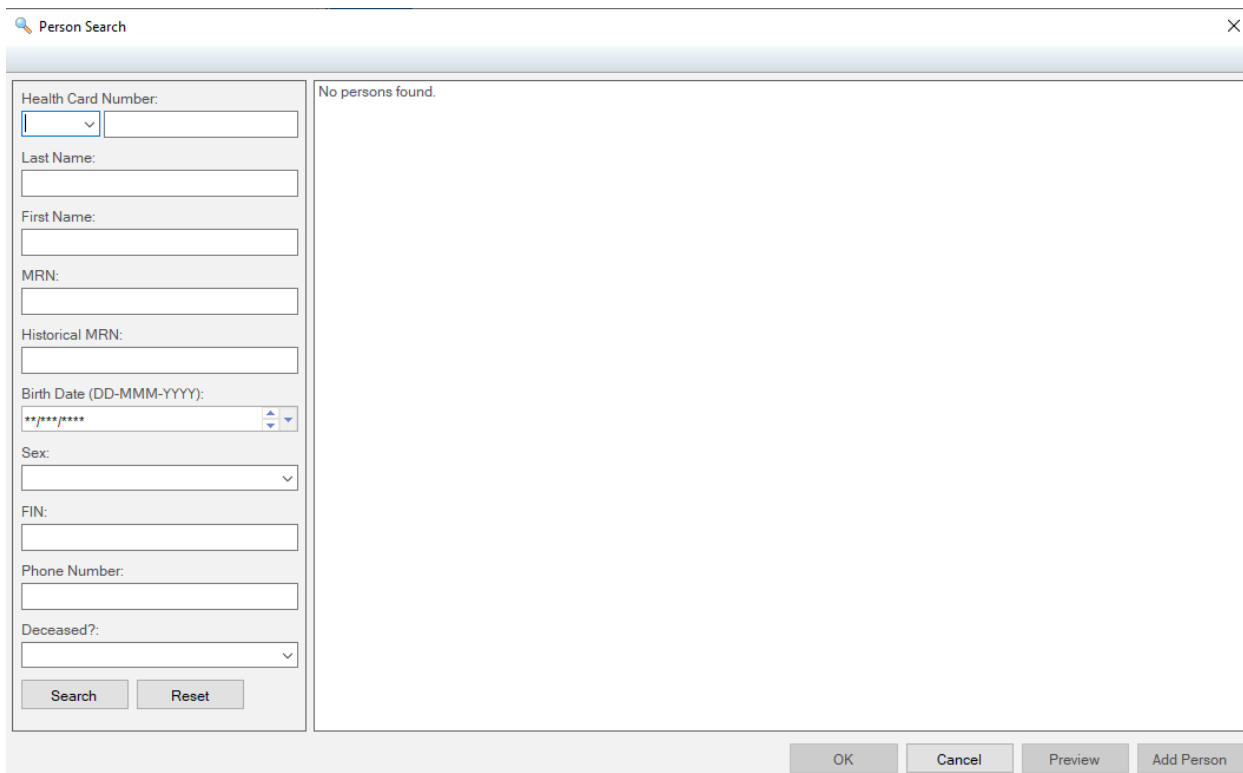

- Then select **OP Ambulatory Registration** and select **OK**.

- Now you will input all of their information and select **Search** then select **Add Person**.

Comment:

Edit the “Date of Service” if desired.

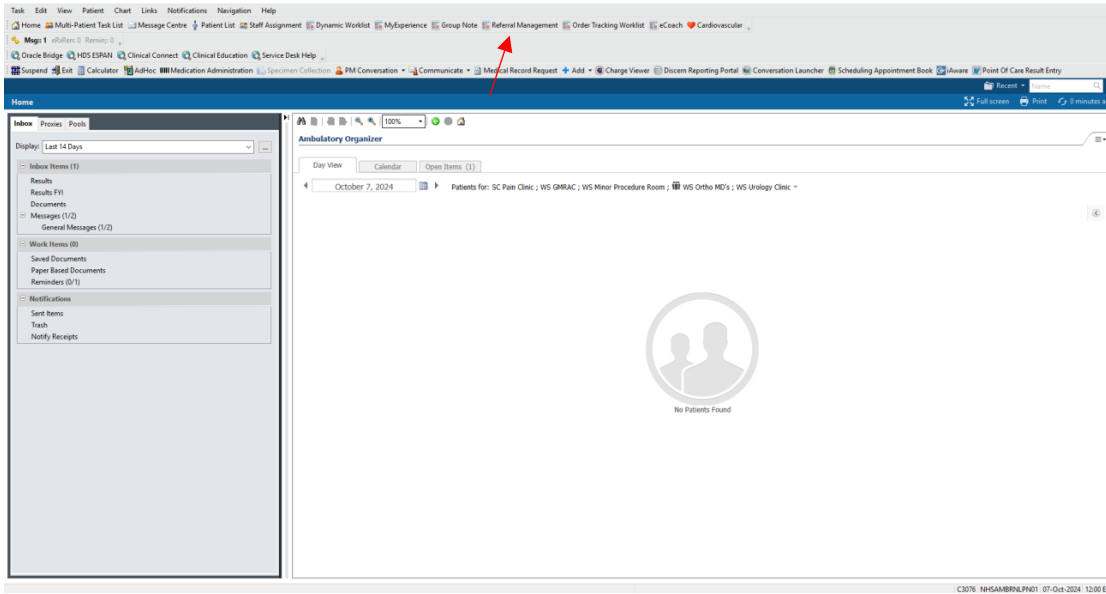

7. When documentation is complete, select **OK**.
8. Now when navigating back to Powerchart and opening the patient chart, this form will be visible under **Documentation**.

The screenshot shows the Powerchart software interface. The top banner displays patient information for ZZOINC, STRAWBERRYMILKMOB, including MRN: 11054590, DOB: 15/Apr/1997, and attending physician information. The left sidebar contains various navigation options, with 'Results Review' highlighted. The main content area shows a list of documents under the 'Documentation' tab. A document titled '2024-Sep-30 15:43:11' is selected, showing a 'Referral Form' type. The interface also includes a top menu bar with options like 'Add', 'Submit', 'Forward', and 'Preview'.

Now that the documentation has been added to the patient chart. We can create an inbound referral to add it to the clinic’s referral list.

9. Navigate to **Referral Management** from the top banner bar.

10. Ensure the correct worklist is selected, each clinic should have an **Originating** and **Receiving** list. For this you can select either list as we will be creating an **Inbound Referral**.

11. If you do not have the correct worklist to add a worklist select **List Maintenance**.

Nursing Staff:

1. Navigate to **Referral Management** from the top banner bar.

2. Ensure the correct worklist is selected, you will select the clinic's **Receiving** list.

Here you will see the referral sent by the clerical staff, it will be shown in a **Pending Acceptance** status.

The screenshot shows the 'Referral Management' window with a table of referrals. A red arrow points to the first row, which has a 'Pending Acceptance' status. The table columns include Patient, Requested Start Date, Last Updated Date, Status, Priority, Referred By, Referred To, Assigned To, Requested Service, Indicators, and Service By Date.

Rejecting

1. Select **Reject** to reject the referral or indicate that a referral sent was rejected.

Patient, Test
 5 yrs Female DOB: OCT 26, 2013 MRN: 10000655 FIN: 20000670

Please Accept or Reject the referral.

Status: **Pending** [Edit](#) Unassigned [Assign to me](#) [Assign](#)
 Substatus: Pending Review [Edit](#) [Clear](#) Case Number: 12062

2. Enter a codified rejection reason, and, optionally, a free-text rejection reason. The system updates the status of the referral to Rejected.

Reject Reason

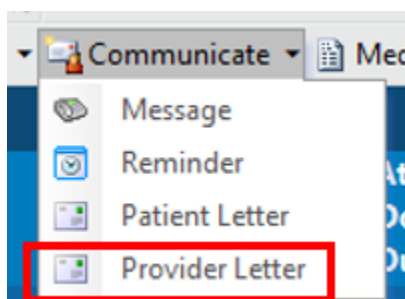

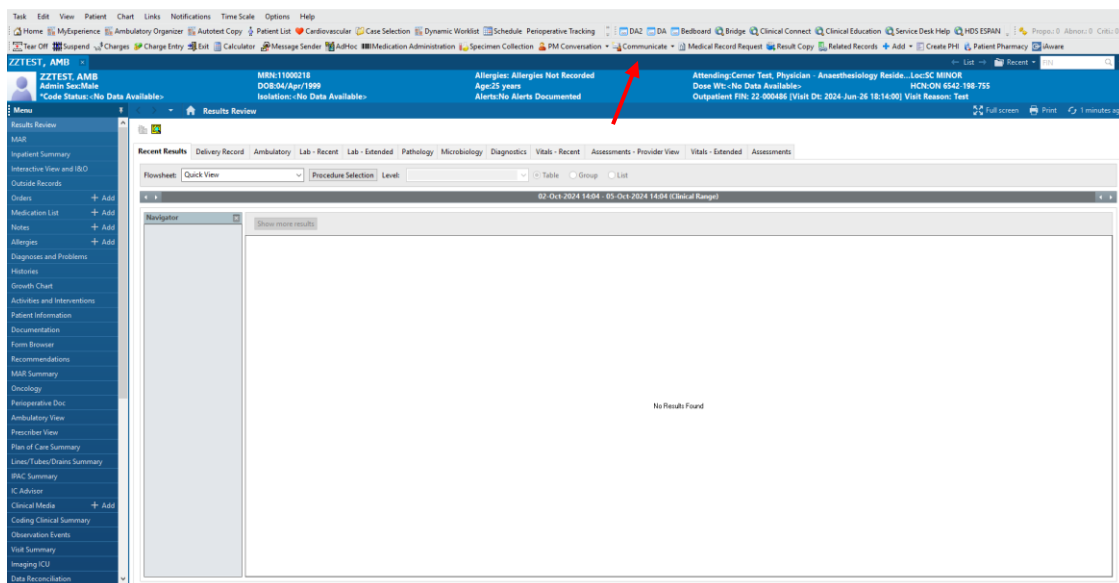

*Reason

▼

Comment

The referral status is updated to Rejected.

3. Now you inform the provider of the rejection reason, a provider letter would be used. Click on the black dropdown next to **Communicate** and select **Provider Letter**.

4. Search for and select a provider from the Search for Provider list, or select a provider from the Favorite or Recent Recipient tab. If you need to manually enter a recipient's click **Add Freetext Recipient**. The provider is added to the Recipient list.

OK Cancel

- Click **OK**. The Create Letter dialog box is displayed and you can input why the referral was rejected. When complete select **OK** to send the provider letter.

7. Within the provider letter there is an autotext icon.
8. Within the auto text “library”, there are three functions.

- a. “My Phrases”-contains the auto texts you have created.
- b. “Public Phrases”-contains all model auto text that are built in Cerner.
- c. The “Add/+” button -allows the user to create a custom auto text.

The following are currently built out as LDAP Autotexts.

Charting For LDAP

*Initial Intake, since most of the intake pertaining to your clinic occurs on the phone, you would utilize **PM Conversation**.*

The use of PM Conversations: Telephone Visits is for patient interactions that are not booked appointments, but need to be logged as visits for the purpose of keeping statics on the amount of time staff are spending with patients. This feature is to be used for any patient telephone interaction over 5mins in length that is not a pre-booked telephone visit.

1. From the home page on the screen choose PM Conversation and Telephone Visit.

2. Type patient name in the search field and click the search button.
3. Once you find the patient click **Add Encounter** to make a telephone visit encounter.

NOTE: if you do not find the patient, connect with your Ward Clerk to ensure patient information has been entered in the system.

6. You will receive the following message and click “OK”. You will get the following message asking if you would like to open the chart. Click “Yes”.

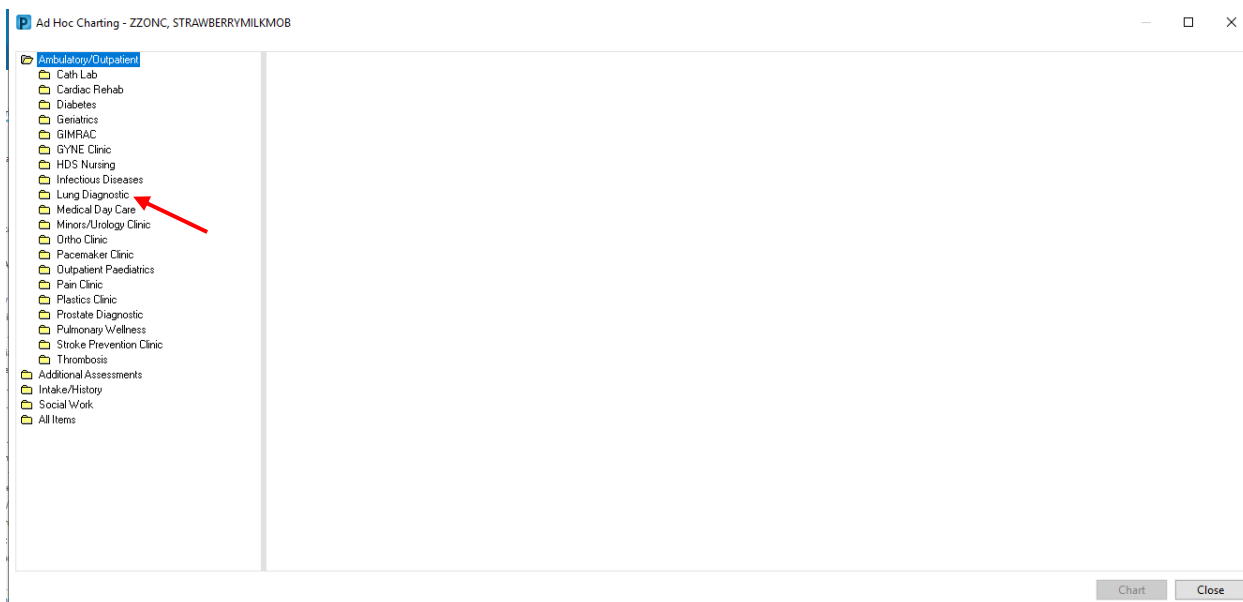

7. Launch into the patient chart and locate the powerform you would like to complete. This can be done either through adhoc charting or through the vital sign drop down “carrot”.

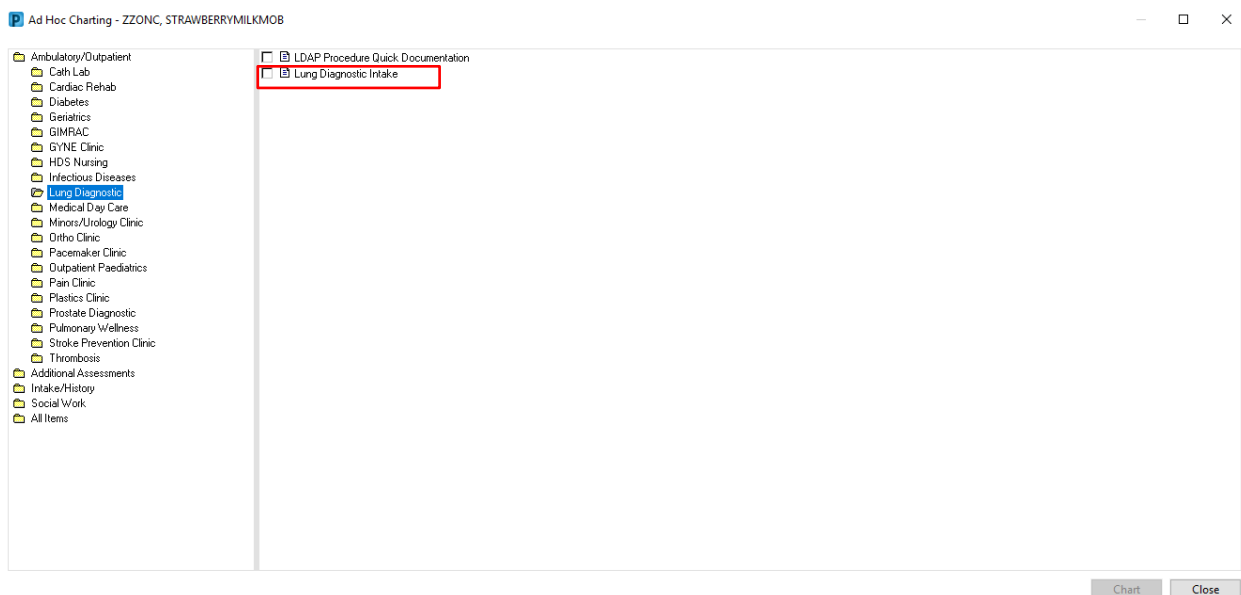

Adhoc Charting

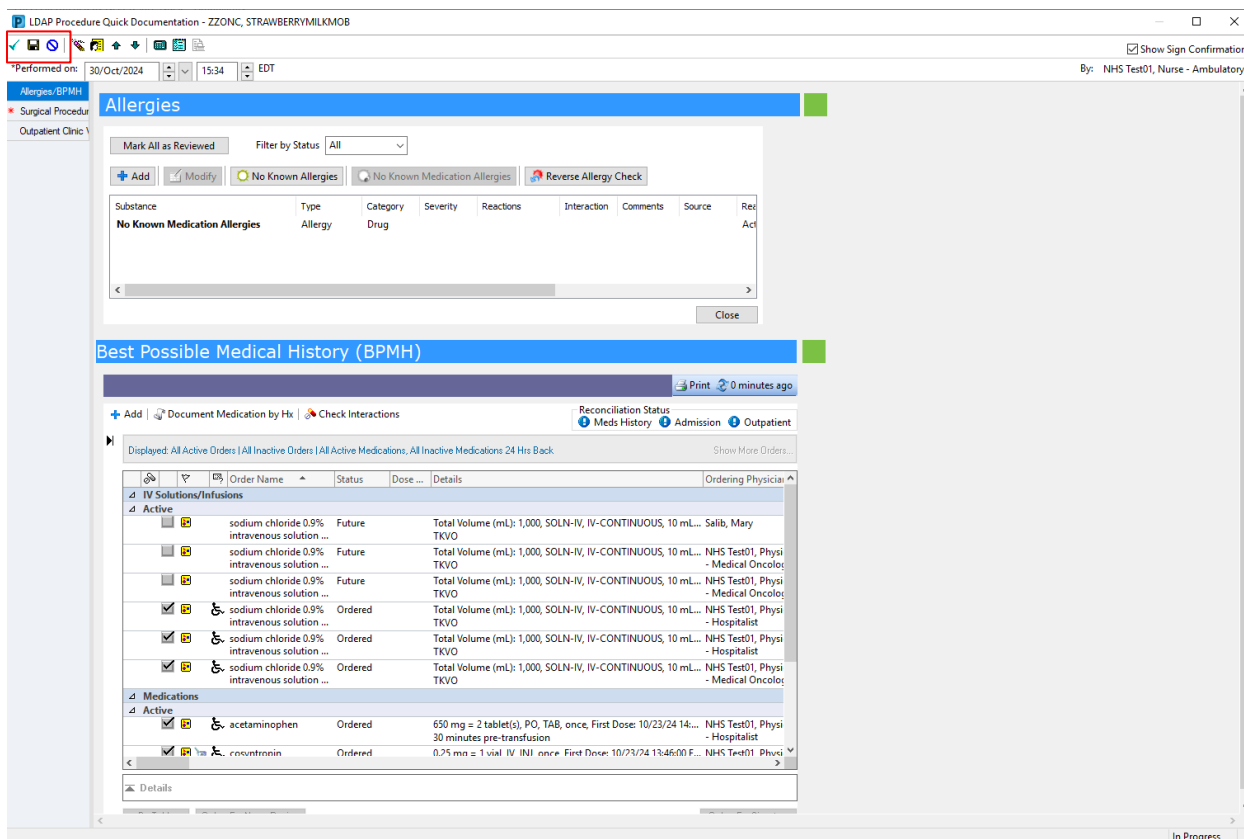

8. The ambulatory folders will show, navigate to your clinics appropriate folder.

9. Now you can pick your clinic form or the generic telephone visit form.

Within the forms the buttons on the top are for the following:

- ✓ - Submit
- 📄 - Save but **NOT** Submit, when you use this you can reopen your forms in **Form Browser**. Double click the forms to reopen and continue charting.

Vital Sign Drop Down Carrot:

1. When in your patient chart, select **Outpatient View** if not already open.

TIP SHEET

HOSPITAL INFORMATION SYSTEM (HIS)

The screenshot shows the 'Outpatient View' interface for patient ZZTEST, AMB. The 'Vital Signs' section is active, displaying a table of vital signs over time. A red arrow points to the 'Vital Signs' tab in the left-hand navigation menu.

	13 OCT 2024	30 JUL 2024	30 APR 2024
BP	108/62	108/62	118/60
HR	60	60	60
Temp	37	37	37
Respiratory Rate	16	16	16
SaO2	98	98	98
Weight	121.000	121.000	121.000
Weight Measured	121	121	121

2. Now navigate to the **Vital Signs** section, here you will locate the “carrot” icon

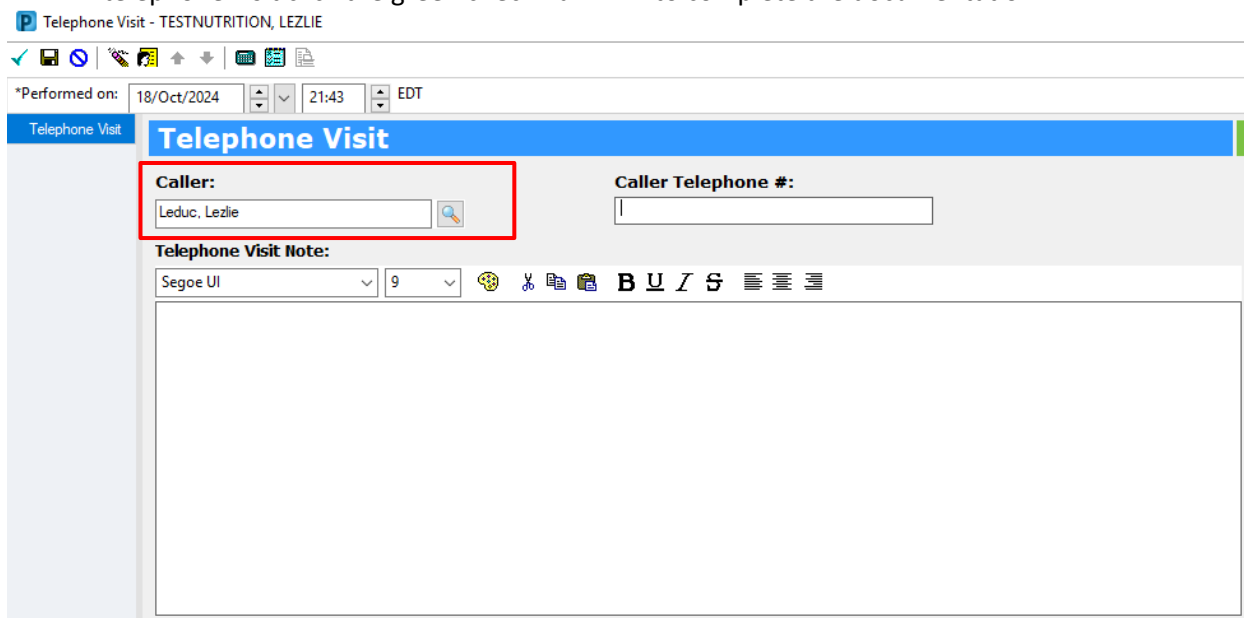

This screenshot is similar to the first one but highlights the 'Vital Signs' section. A red arrow points to the 'Vital Signs' tab in the left-hand navigation menu. Another red arrow points to the '+' and '-' icons in the table header, which are used to expand or collapse the table.

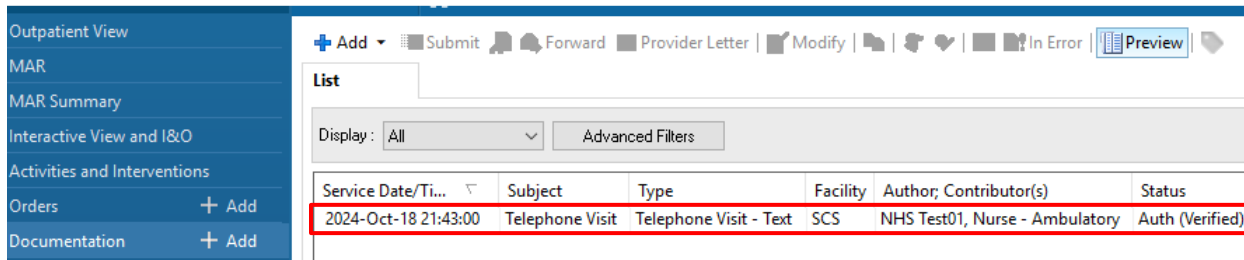

3. From the drop-down list, select **Telephone Visit**.

4. Document your patient encounter. On the telephone visit form you can add the caller name and number by searching with the  and finding the clinician's name. Once you complete the telephone visit click the green checkmark  to complete the documentation

5. This will document the power form in the chart and register a telephone visit as an encounter.
