

SOCIAL HISTORY HOSPITAL INFORMATION SYSTEM (HIS)

CLINICIANS

The ability in add information into the social history can be added a couple of different ways into a patients chart.

You have two way to access Social History:

- 1. For Ambulatory Powerform the teams decided Social History is important you can access it through your powerform.
- 2. From the Table of Contents: Histories section.

Viewing Social History

- 1. Select a category from the list.
- 2. Right-click and select View [Category] History.

Adding Social History

1. Click Add.

- 2. In the Add History dialog box, complete the details for each category. Scroll down to access more categories.
- 3. Click OK.

NOTE: If social history information is unavailable for a patient, select the **Unable to Obtain** check box.
