

ED QUICK REGISTRATION

HOSPITAL INFORMATION SYSTEM (HIS)

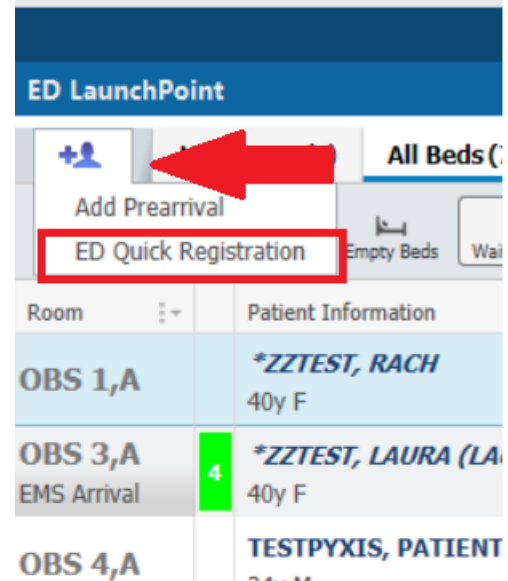

Version 1 - November 2024

ED NURSES AND CLERKS

Quick Reg is the first step to get a patient registered and into the system. Once a patient is quick registered, a 'chart' is created/accessible to place orders.

How to Quick Reg?

1. Once you are in LaunchPoint, you will hover over the blue person silhouette with a plus sign in the top left-hand corner.
2. You will then select 'ED Quick Registration.
3. The Quick Reg 'Person Search' window will open. You will enter the persons information into these search boxes and hit 'search'. If they have their health card, you would swipe that and their information will populate from the system.
4. If the patient is not displayed in the 'Person Search' results, click on 'Add Person' to create a new MRN.

If the patient is displayed, select the patient and click on 'Add Encounter' to attach the new encounter to the patient's existing MRN.

5. Once you click on either 'Add Person' or 'Add Encounter', you will be brought to the ED Quick Registration window.

You will fill in all the required fields which are indicated with a red asterisk and are highlighted yellow. Once completed click on 'Ok'.

PENDING ARRIVAL

Pending arrival is a function utilized to get a patient on the board prior to them arriving to the ED. This will be utilized for strokes when we get additional information via the red phone.

How to do a Pending Arrival?

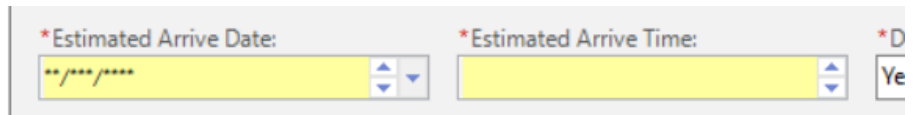

1. You will complete steps 1-5 from the quick reg instructions.

2. Beside the drop down for transfer from an external facility is a drop down with the label 'Pending Arrival'. By clicking in this drop down and selecting yes, you are starting the pending arrival.

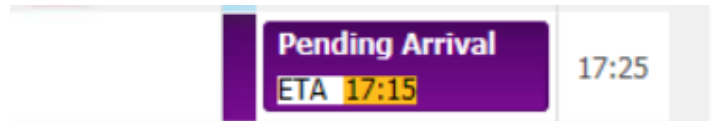

A screenshot of a web form. On the left, there is a dropdown menu labeled '*Transfer from external facility?:' with a yellow background. To its right is another dropdown menu labeled 'Pending Arrival:' with a white background and a red border. The 'Pending Arrival' dropdown is currently set to 'No'.

3. Once you select Yes in this dropdown box, you will get 2 conditional logic questions that will be mandatory. You will enter the estimated date and time of the arrival of the patient. Once complete, select 'Ok'.

A screenshot of two input fields. The first is labeled '*Estimated Arrive Date:' and has a yellow background with a date format '*/**/****'. The second is labeled '*Estimated Arrive Time:' and has a yellow background with a time format 'HH:MM'. Both fields have dropdown arrows on the right. To the right of the time field is a 'Yes' button.

4. Once the patient is quick registered as a 'Pending Arrival' the status column will indicate 'Pending arrival'.

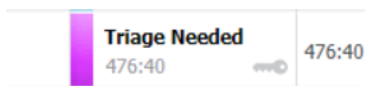

A screenshot of a patient status column. It features a purple bar with the text 'Pending Arrival' and 'ETA 17:15' in white. To the right of the bar, the time '17:25' is displayed.

Arriving the Pending Arrival

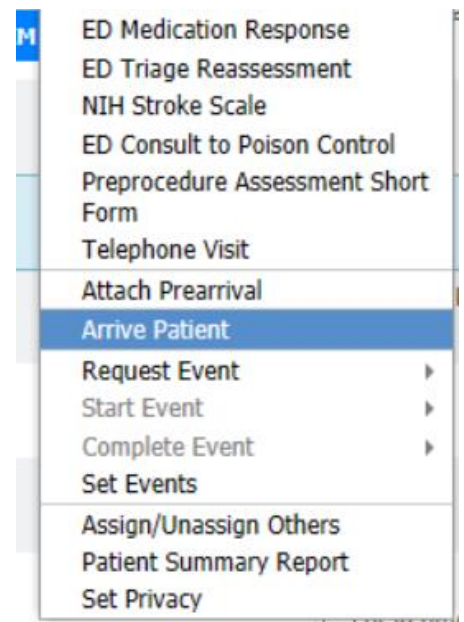

In order to indicate that the patient has arrived at the hospital, you will need to 'arrive' the patient.

- Right click on the patient's row to open the context menu.
- Click on 'Arrive Patient'
- You will enter T and N for 'today' and 'Now' and click okay.

Patient's status on LaunchPoint will turn from Pending arrival to 'Triage Needed'.

A screenshot of a patient status column. It features a purple bar with the text 'Triage Needed' and '476:40' in white. To the right of the bar, the time '476:40' is displayed.

A screenshot of a context menu. The menu items are: ED Medication Response, ED Triage Reassessment, NIH Stroke Scale, ED Consult to Poison Control, Preprocedure Assessment Short Form, Telephone Visit, Attach Prerival, Arrive Patient (highlighted in blue), Request Event, Start Event, Complete Event, Set Events, Assign/Unassign Others, Patient Summary Report, and Set Privacy.

MODIFYING AN AMBULANCE RUN NUMBER

After you have completed the Quick Reg, you are able to modify the original run number you entered.

1. Click on the blue person silhouette with the plus sign beside it. You will select 'ED Quick Reg'.

2. You will search for your patient's name in the search fields. Enter their first and last name. Select the proper encounter from the bottom list and hit 'OK'.

3. Once you have hit OK, the Quick Reg window will open. From here, you can change the run number you entered and put in the new one. Once you are finished you will click on 'OK'.
