CRITICAL EVENT (CODE BLUE/PINK)
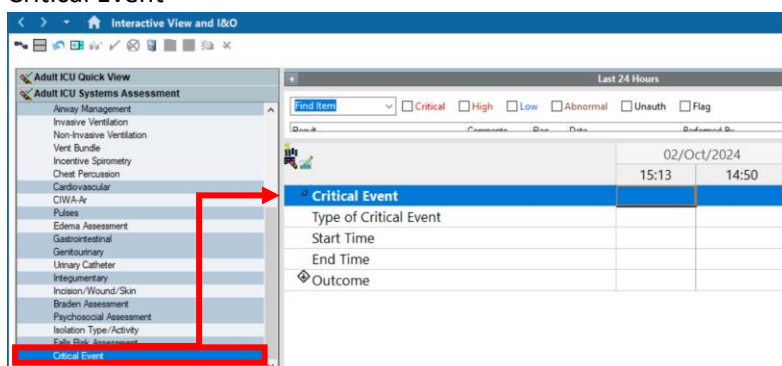

1. The documentation **during** a Critical Event (Code Blue/Pink) remains the same as before, using the **Adult/Pediatric Resuscitation Record** paper form. This document is located and can be printed from the Emergency Resource Directory (Emergency Codes Icon) on the SourceNet home page (https://erd.res.lhiniv.net/web/list/326) This form will also still be available on all the clipboards on the Code Blue Carts.

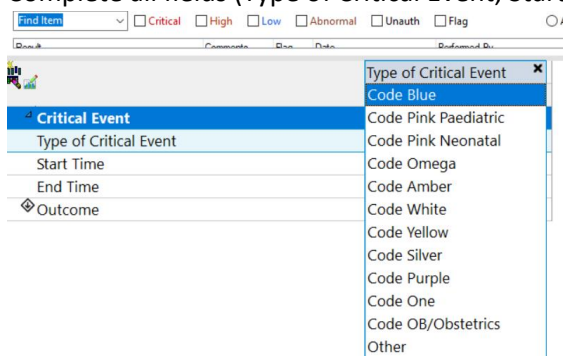

Emergency Codes

Once the Critical Event (Code Blue/Pink) has ended, the following steps must also be completed:

a. Open the Interactive View and I&O section of PowerChart, under Adult Systems Assessment, click on Critical Event

b. Complete all fields (Type of Critical Event, Start Time, End Time, and Outcome)

2. The **Adult/Pediatric Resuscitation Record** needs to remain in the physical, paper chart and will be scanned into the electronic chart after discharge by HIM.
