

Finding the Dosing Weight

The documented dosing weight can be found in the **Banner Bar, Measurements** section in the **System Assessment** iView band, or in **Results Review** on the **Recent Results** tab.

The screenshot displays the Banner HIS interface for a patient. At the top, the patient's MRN (11000595), DOB (11/Feb/1950), and allergies (grape seed oil) are visible. A red box highlights the 'Dose Wt: 75.000 kg (02-Oct-2024)' in the top right corner.

The 'Adult Quick View' section on the left includes 'Adult Systems Assessment' and 'Measurements', both highlighted with red boxes. The 'Measurements' section shows a table of data for 02/Oct/2024:

Measurement	Unit	Value
Height/Length Measured	cm	
Weight Measured	kg	75
Weight Dosing	kg	75.000

The 'Recent Results' section at the bottom shows a 'Quick View' of the 'Measurements' data, with a red box highlighting the 'Weight Measured' (75) and 'Weight Dosing' (75.000) values.

Entering the Dosing Weight

DOSING WEIGHT

HOSPITAL INFORMATION SYSTEM (HIS)

The first measured weight entered into the **Weight Measured** field by the health care provider becomes the dosing weight (**Weight Dosing**) once signed. The dosing weight displays in the banner bar as 'Dose Wt' once entered.

The screenshot displays the HIS interface for a patient. At the top, a blue banner contains patient information: MRN: 11000595, DOB: 11/Feb/1950, Allergies: grape seed oil, Age: 74 years, Alerts: No Alerts Documented, and Attending: Dose Wt: 75.000 kg (02-Oct-2024). The patient is in Care 2 (Intubation, no CPR) and isolated. The left sidebar shows a list of assessment categories, with 'Adult Systems Assessment' and 'Measurements' highlighted. The main area shows a table of measurements for 02/Oct/2024. The 'Weight Measured' and 'Weight Dosing' rows are highlighted in red, showing a value of 75 kg.

Updating the Dosing Weight

The dosing weight is updated by entering a new measured weight result in the **Weight Dosing** field. Once documented, signed, and refreshed, the updated result will populate in the **Banner Bar**.

Allergies: grape seed oil
 Age: 74 years
 Alerts: No Alerts Documented

Dose Wt: 82.500 kg (02-Oct-2024)
 Referred In FIN: 22-000925 (Visit D

Last 24 Hours
 Critical High Low Abnormal Unauth

ALERT

Updating the dosing weight **DOES NOT** modify existing medication orders. Should the order need to be modified to reflect the new dosing weight, the medication order itself must be modified.
