

Entering and Cancelling Diet Orders - Nursing

In Cerner, the end user will need to cancel the existing diet order before the new diet order can be implemented.

NOTE: Following an "Advance Diet as Tolerated" Order – Follow these steps to order a new diet order, but ensure that you do not place an order for a diet ABOVE the ceiling that the MRP has ordered. The goal is to get the patients diet back to their baseline using **CLINICAL JUDGEMENT** to advance, stop or reduce the diet order within the Nurses scope of practice.

Adding a new diet:

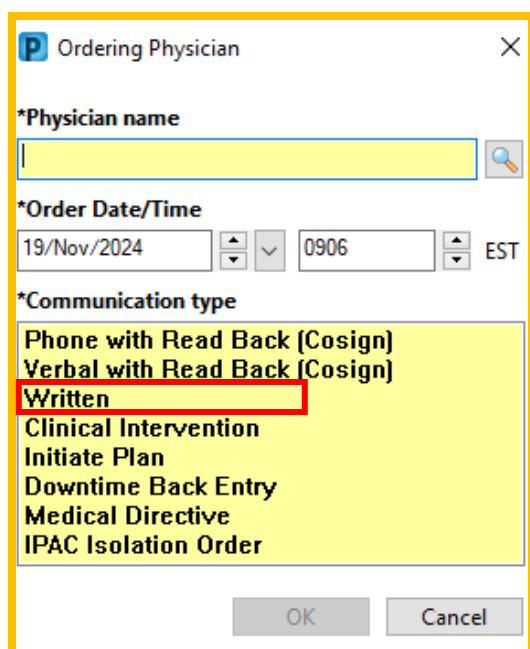

Click on Add within the Orders tab:

Choose a primary diet by typing a few letters of the diet name:

Select the MRP and choose “Written” communication type

P Ordering Physician

*Physician name

*Order Date/Time
19/Nov/2024 0906 EST

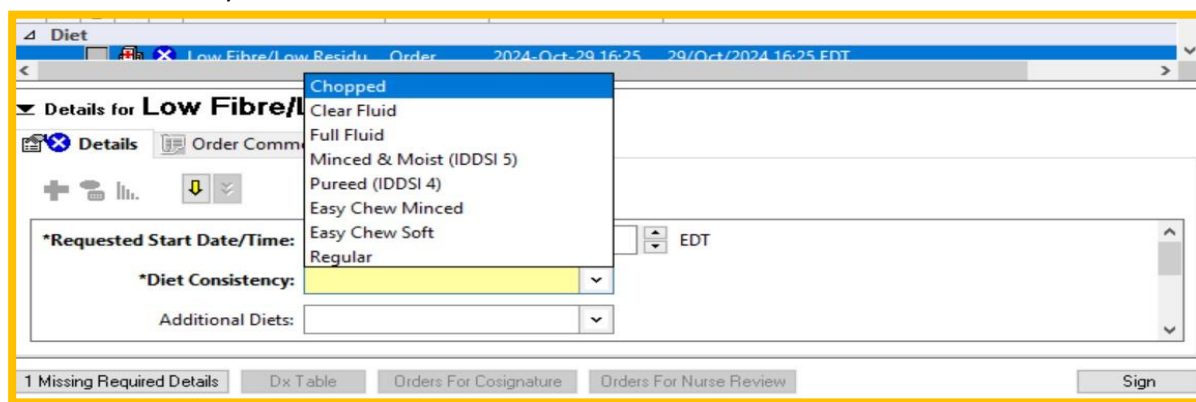

*Communication type

- Phone with Read Back (Cosign)
- Verbal with Read Back (Cosign)

HOSPITAL INFORMATION SYSTEM (HIS)

To Note:

Diet Orders entered prior to the patient being admitted will not flow to CBORD. Diet will need to be cancelled and ordered again.

There can only be one active diet order on a patient chart. You will get an error message of a duplicate diet order if you try to file a second order.
