

### POCRE – Point of Care Result Entry

#### What is POCRE?

The POCRE – Point of Care Result Entry is used to order and record non-interfaced point of care tests and can be assessed from PowerChart with patient context

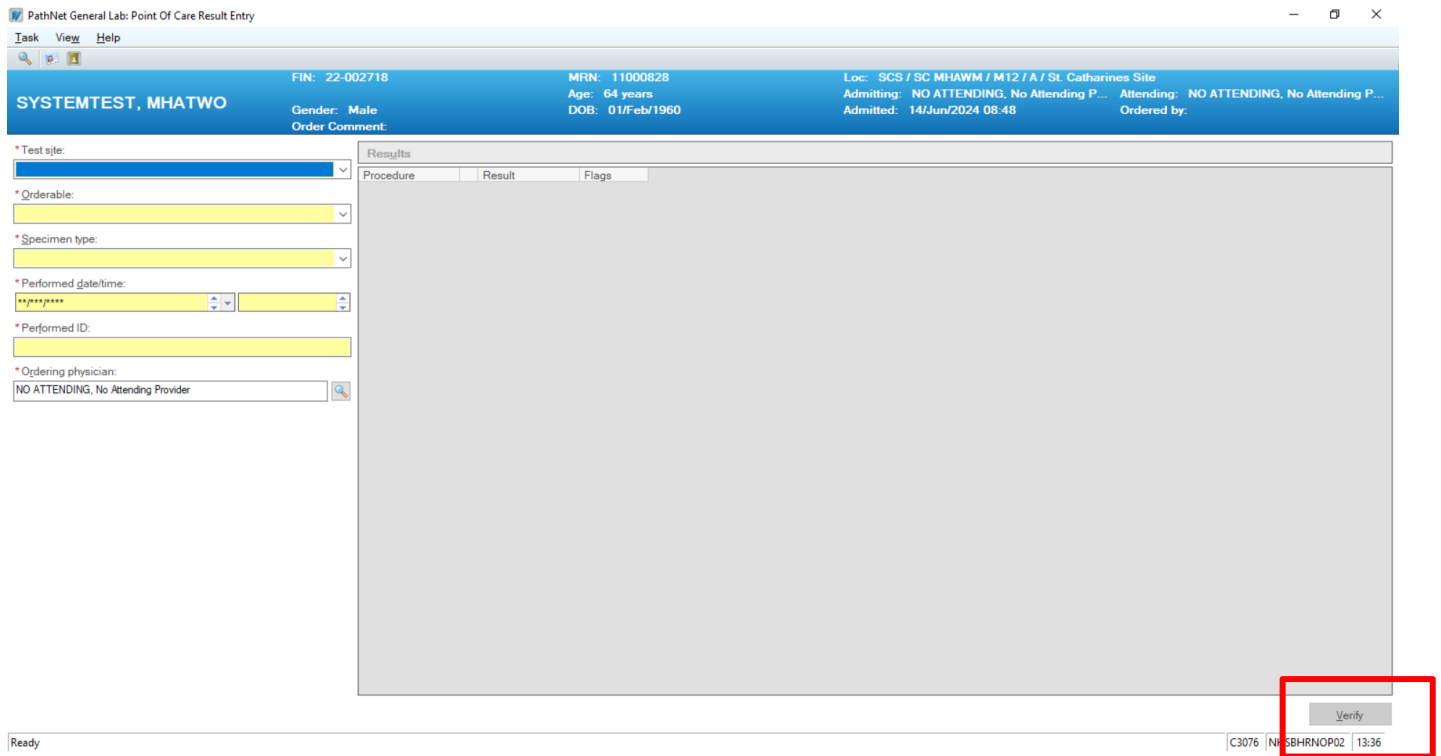

#### How to log POCRE – Point of Care Result Entry?

- 1) Log into patient chart
- 2) Single left click on upside down arrow (toolbar options) on the far right of grey menu bar.

The screenshot shows the PowerChart interface for patient SYSTEMTEST, MHATWO. The top right toolbar contains several icons, and a red box highlights the 'Point Of Care Result Entry' option, which is indicated by a yellow arrow. The main content area displays patient information, including MRN: 11000828, DOB: 01/Feb/1960, and a warning that 'Allergies Not Recorded'. The 'Home Medications' section shows a list of medications, including diazePAM (diazepam 10 mg oral tablet).

- 3) Single left click on the Point of Care Result Entry option.
- 4) PathNet General Lab: Point of Care Result Entry window opens.
