

POCRE – Point of Care Result Entry

What is POCRE?

The POCRE – Point of Care Result Entry is used to order and record non-interfaced point of care tests and can be assessed from PowerChart with patient context

How to log POCRE – Point of Care Result Entry?

- 1) Log into patient chart
- 2) Single left click on upside down arrow (toolbar options) on the far right of grey menu bar.

The screenshot shows the PowerChart interface for patient SYSTEMTEST, MHATWO. The patient information bar at the top includes MRN: 11000828, Admin Sex: Male, Age: 64 years, and Allergies: Allergies Not Recorded. The main content area displays the 'Allergies Web (0)' section with a warning: 'Warning, Allergies Not Recorded'. The 'Home Medications (1)' section shows a medication entry for diazePAM (diazepam 10 mg oral tablet). The grey menu bar on the right side of the window has a red box highlighting the 'Point of Care Result Entry' option.

- 3) Single left click on the Point of Care Result Entry option.
- 4) PathNet General Lab: Point of Care Result Entry window opens.
