HIM ROLES

Printing Medical Record Request:

When a patient is transferred to another facility, their electronic documentation is printed and sent as a paper record to the receiving care providers. Patients should continue to request their medical records through Health Records.

1. Open **Powerchart** p from the AppBar.

 Open the patient's chart, select the correct encounter and click on "Medical Record Request" tab.

Note: *For Clinical Solutions*: A Medical Record Request is needed when transferring a patient to a facility that can't access the Electronic Health Record. Follow your site's guidelines for printing patient information. This request can also be used for printing discharge instructions for the patient either in the ED, ambulatory clinic or inpatient unit.

Note: *HIM Solutions*: a medical record request is needed when sending documents to Doctors offices and Hospitals for circle of care requests outside of Release of Information.
