Last updated by Rachael Cooke, Mar 18, 2024 9:26am (UTC -4 hours)

Work Step [17623]

Description: Nurse collects specimen per policy and procedure. Documents activity as complete.

Comments: If using an automatic method of results documentation, such as docking the device, follow the patient data upload process as instructed by the device manufacturer.

Work Step [17625]

Description: Performs the test

Work Step [17662]

Description: Perform result upload procedure (i.e. docking the device) Ex. Glucmeters, POC urinalysis, ISTAT, etc)

Comments: It is highly recommended that the result upload procedure be performed after each test so the data flows to the chart in real-time.

System [17663]

Description: Point of Care device downloads results to chart

Comments: Results should be viewable within FirstNet and/or on LaunchPoint.

Start/Stop [17669]

Description: Notify ED Provider of results (if critical)

Work Step [17680]

Description: Results populate to Results Review
