

AMBULATORY ORGANIZER IN POWERCHART HOSPITAL INFORMATION SYSTEM (HIS)

PRESCRIBERS

The **Ambulatory Organizer** provides a summary of the scheduled appointments for a selected resource or group of resources. The view includes appointment times, patient information, appointment indicators and visual cues notifying you of pertinent changes to the patient status.

When you log into the **PowerChart** application, it lands on the **Ambulatory Organizer** window. Alternatively, you can click on the **Ambulatory Organizer** icon in the toolbar to open this window.

Appointments can be viewed in list format under the **Day View** tab or in scheduling grid format under the **Calendar** tab.

Set up Ambulatory Organizer

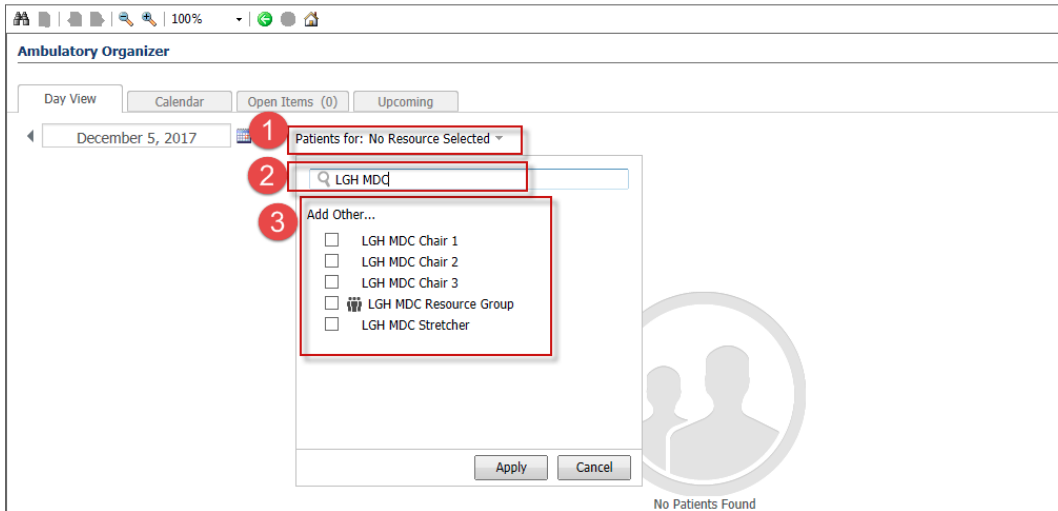

The first time you open **Ambulatory Organizer** it will be blank. You must follow the steps below to specify which Resource(s) you would like to view appointments for.

AMBULATORY ORGANIZER IN POWERCHART HOSPITAL INFORMATION SYSTEM (HIS)

1. Select the **Patients for:** No Resource Selected by clicking on the drop-down arrow.
2. Type the name of the Resource(s) or Resource Group(s) in the search window you would like to view appointments for (i.e. NH Peds Asthma Resource Group).
3. Select the **checkbox** in front of the appropriate Resource(s).

4. Click the **Apply** button. A list of appointments for the selected Resource/Resource Group will appear.
NOTE: After initial setup of the Resources, the settings will be saved to your account. You must manually change the Resources in the **Patients for:** drop-down if you would like to view different appointments. When you choose a resource in Day View it won't change the resource in Calendar view.

AMBULATORY ORGANIZER IN POWERCHART

HOSPITAL INFORMATION SYSTEM (HIS)

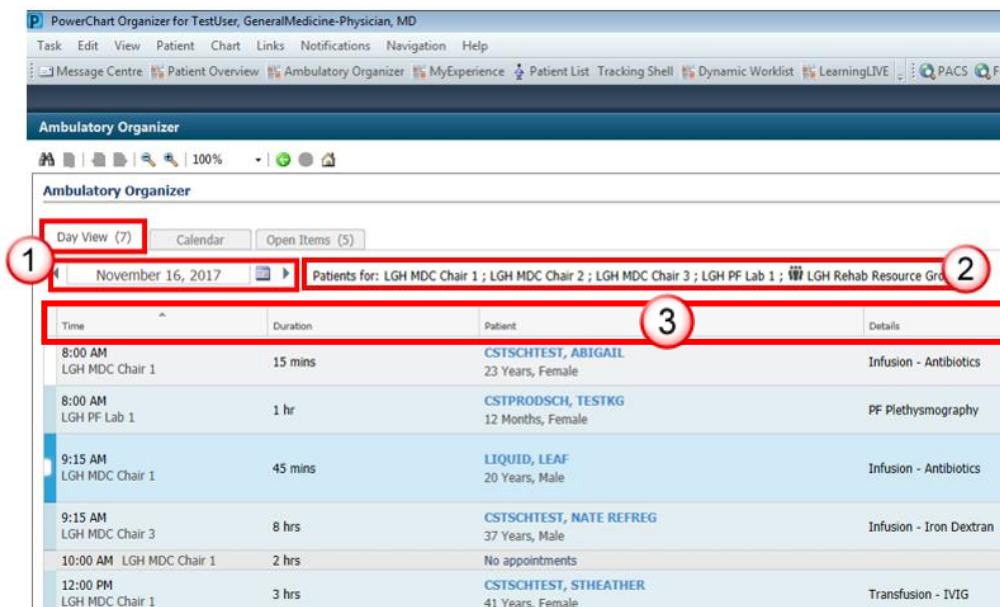

Ambulatory Organizer

The **Ambulatory Organizer** provides a simple but comprehensive display of scheduled appointments for providers. It provides a snapshot of the current day's appointments, including appointment gaps, appointment times and details, patient information and status, outstanding items to be completed at each visit, and reminders.

The **Ambulatory Organizer** provides ambulatory physicians and support staff with a framework to organize workflows at the day, week, or month level; to manage items that need to be completed with each visit; and to view previous visit items that were not completed for the visit.

Day View

1. The first tab is the **Day View** tab. This tab displays the appointments for the selected resources for that particular day. You can select a different date by using the Calendar icon.
2. **Day View** heading indicates your name and what facilities are included in your appointment list for the date. You can use this to filter your appointments to a particular facility.

NOTE: Multiple resources can be selected in **Day View**. Physicians will see their names as resources.

3. You can also sort the appointment list by selecting one of the following column headings: Time, Patient, or Status.

NOTE: The colour status on the left side of the **Day View** and on the **Calendar** view assists you to understand the flow of the clinic. Your site might be using different colour scheme assigned to the appointment status.

-  Light blue – a confirmed appointment
-  Medium blue – checked appointment
-  Green – patient seen by a nurse, medical student or another other custom status
-  Orange – seen by a provider or a resident
-  Dark gray – appointment has been checked out
