

CASE INVESTIGATION IN MILLENNIUM POWERCHART HOSPITAL INFORMATION SYSTEM (HIS)

Steps:

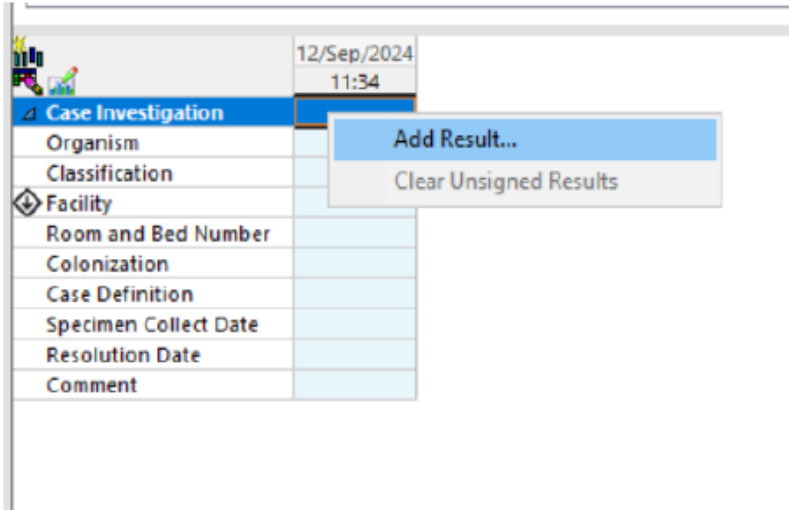

- 1) First, open the selected patient's chart. On the left side of the page there is a Menu, select **Interactive View and I&O**
- 2) Under the Infection Control Panel, select **Case Investigation** here you can start filling out the investigation. See image below:

The screenshot displays the Millennium PowerChart interface for a patient named SPETEST, SCENARIOTHREE. The patient's MRN is 11001348, DOB is 01/Aug/1980, and they are 44 years old. The interface is in 'Interactive View and I&O' mode. The left-hand menu is expanded to show the 'Infection Control' section, with 'Case Investigation' selected. The main content area shows a list of items under 'Infection Control', including 'Disclosure Report', 'IPAC Worklist', and 'Case Investigation'. A pop-up window is open for the 'Case Investigation' item, showing a search bar and a table of results. The table has columns for 'Result' and 'Comments'. The first row shows 'Case Investigation' with a date of 12/Sep/2024 and a time of 09:29. Below the table, there are fields for 'Organism', 'Classification', 'Facility', 'Room and Bed Num...', 'Colonization', 'Case Definition', 'Specimen Collect Date', 'Resolution Date', and 'Comment'.

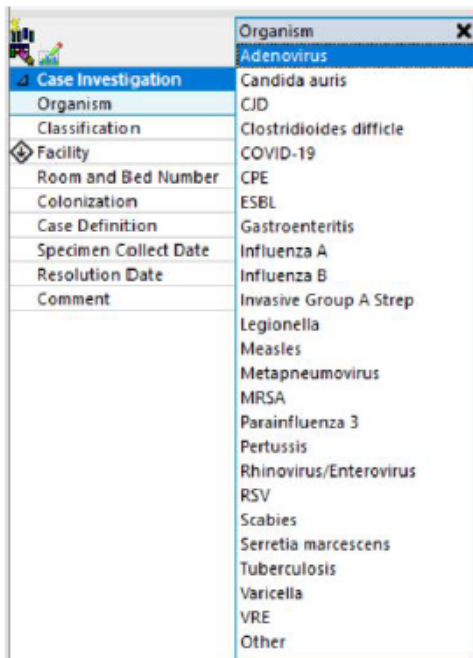

To Create a Case:

- 3) Enter the Organism associated with the Patient
 - a. Right click on the **Case Investigation** column
 - b. Select "Add Result"

- 4) How to add results for each column:
 - a. The system will automatically prompt for the addition of each column if "**Add Result**" is selected
 - b. If "**Add Result**" is not selected you can double click the empty column to enter the documentation OR right click each empty column and select "Add Result"
- 5) Select the Organism from the List (only 1 organism documented per Case Investigation):
