

ONTARIO eHUB OVERVIEW

Ontario eHub can exchange information with Long Term Care homes.

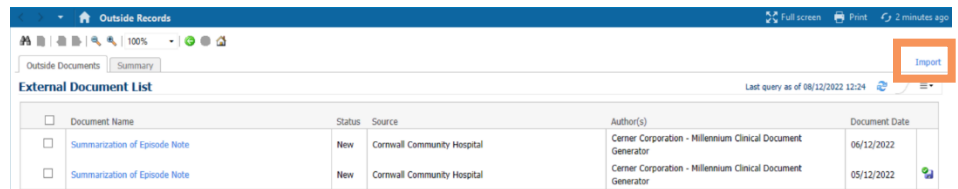

To view outside information in PowerChart navigate to the Menu and select Outside Records.

There are two tabs on the Outside Records mPage: Outside Documents and Summary.

Outside Documents: All available external documents will be listed here. External documents can be saved to the patient chart from this tab.

Summary: Categorizes external information in separate sections.

In addition, there is also an **IMPORT** hyperlink. Click this link to import any new information into the patient's chart. This link is available on both tabs.
