Surgical Management

Project Name: Niagara Health System:OPT-0297674:NIAG_CD Niagara HIS RFP

TestBuilder Script(s):

Cerner Workflow ID: 538 (v. 12.0)

Client Workflow ID: 112

Workflow Notes: This workflow outlines the steps involved in the PACU/Recovery phase of a perioperative procedure.

NOTE: This version differs from published version based on performing the transfer prior to the handoff being performed in PACU. Other changes may apply but are not immediately noticeable.

Introduced By: WS 6

Validated By: WS 7

Swim Lane:

Role(s): PARR Nurse [Custom]

Department(s):

Security Position(s): Perioperative - Nurse

Off Page Reference [[44239](#)]

Workflow Link: Perioperative - Intraop/Intraprocedure

Work Step [[44240](#)]

Description: Open PowerChart and verify the Encounter (MRN). Does the MRN on the patients ID band and in Millennium match?

Future State: Perioperative - Phase I Recovery

Cerner Workflow ID: 538 (v. 12.0) Client Workflow ID: 112

Last updated by Kristen Boichuk (Doan), Feb 29, 2024 1:12pm (UTC -4 hours)

Method: PowerChart

Work Step [44033]

Description: Associate patient to Cardiac Monitor if applicable

Method: Interactive View

Comments: Endoscopy and APU do not use Cardiac Monitoring in recovery areas

Work Step [44410]

Description: Document Arrival, Initial Assessment, initial Aldrete Score in iView and activate segments.

Work Step [44110]

Description: Recieve handoff from Anesthesia/ Procedural Nurse as applicable

Method: PowerChart

Comments: Any immediate postop orders from the surgeon/proceduralist should be initiated by the ordering physician at the time they're placing them.

Work Step [44032]

Description: Navigate to Periop Doc and document Recovery Start Time and Nurse (assigned)

Method: Perioperative Document

Work Step [44407]

Description: Review Anesthesia PowerPlan and communicate with Anesthesia for additional orders as needed.

Work Step [44035]

Description: Initiate Phase I Recovery Phase of Anesthesia and/or Surgeon/Proceduralist's PowerPlan(s)

Method: PowerOrders

Work Step [44374]

Description: Transfer patient to the appropriate Recovery bay on Perioperative Tracking board

Decision [44044]

Description: Is medication administration required?

Future State: Perioperative - Phase I Recovery

Cerner Workflow ID: 538 (v. 12.0) Client Workflow ID: 112

Last updated by Kristen Boichuk (Doan), Feb 29, 2024 1:12pm (UTC -4 hours)

Decision [44429]

Description: Does the patient need labs drawn?

Work Step [44183]

Description: Complete remaining orders/activities, including documentation in iView

Method: Interactive View

Decision [44298]

Description: Any concerns about patient's recovery/ disposition?

Decision [44492]

Description: Did the Surgeon/ Anesthetist provide orders to indicate a change to the patients disposition?

Work Step [44058]

Description: Document remaining PARR/Recovery Record data, Aldrete Scores and 'Ready for Discharge' time

Method: Perioperative Document

Decision [44127]

Description: Is this a Same Day Surgery patient or Inpatient Admission?

Work Step [44381]

Description: Update status in Capacity Management to "Patient ready for transfer"

Work Step [44473]

Description: Monitor Capacity Management for "Bed Ready" notifications. Call inpatient unit to ensure they are ready to receive patient transfer

Work Step [44486]

Description: Request a porter if needed/ applicable in Capacity Management. Accompanying patients as necessary per protocols.

System [44282]

Description: Perioperative Tracking status updates accordingly and documentation information posts to Charge Review

Step Impact: Financial

Future State: Perioperative - Phase I Recovery
