### Workflow Details:

Niagara Health System

Workflow Name: Perioperative - Procedural Sedation (Opthalmology/ Cataracts) Workflow State: Future State Workstream: Ongoing Assessment and Treatment Venue: Perioperative Client Owner: Boichuk (Doan), Kristen Rachel Cerner Owner: Chariton, Caitlin M Standard: Yes Related Workflow(s): Tags:

### **Workflow Summary:**

Service Line:	
Related Solution(s):	Anesthesia Management
	Surgical Management
Project Name:	Niagara Health System:OPT-0297674:NIAG_CD Niagara HIS RFP
TestBuilder Script(s):	
Cerner Workflow ID:	158 (v. 12.0)
Client Workflow ID:	1114
Workflow Notes:	This covers the basic workflow for Moderate Sedation within a
	procedure area utilizing Perioperative scheduling & documentation.

If a separate sedation nurse is staffed in addition to the procedure/circulating nurse, the steps in the Intra-Procedure Nurse swimlane would be split between those two roles. Introduced By: WS 6 Validated By: WS 7

### Swim Lane:

- Role(s): Operator (Anesthesia) [Custom] Department(s): Security Position(s): Physician - Cardiothoracic Surgery Physician - Colon and Rectal Surgery Physician - Gastroenterology Physician - Plastic Surgery Physician - General Surgery Physician - Orthopaedic Surgery
  - Physician Neurosurgery

Cerner Workflow ID: 158 (v. 12.0) Client Workflow ID: 1114

Last updated by Kristen Boichuk (Doan), Apr 08, 2024 10:51am (UTC -4 hours)

# Work Step [19348]

Description: Perform a Pre Anesthetic Assessment and obtain consent

# Work Step [19387]

Description: Complete or Review and Co-Sign the Pre- Anesthesia Evaluation PowerNote

# **Decision** [19427]

Description: Is the Monitor a Nurse (RN) or Anesthesia Assistant?

Comments: Anesthesia Assistants do not require orders for procedural sedation medications to be placed as they use Medical Directives.

# Work Step [19418]

Description: Anesthetist supervises the AA or RN sedation monitor in up to two cataract procedure rooms for light sedation

# Work Step [19390]

Description: Remain in the area during the procedure and immediately post-procedure until the patient has returned to the pre-procedure status

# Work Step [19091]

Description: Electronically sign the "Sedation Medications" action at the completion of the procedure

Method: Anesthesia Module

Step Impact: Policy/Procedure

Comments: Signing this action verifies that the proceduralist/provider has " ordered all medications administered" and "reviewed all medication dosages documented".

### Work Step [19357]

Description: Place Procedural Sedation orders in a planned state as an Intraprocedure phase of an ANES PowerPlan

### Swim Lane:

Role(s): Monitor (RN/ AA) [Custom] Department(s): Security Position(s): Perioperative - Nurse Emergency Medicine - Nurse Nurse - Cath Lab

Nurse - Critical Care

Cerner Workflow ID: 158 (v. 12.0) Client Workflow ID: 1114

Oct 11, 2024

Nurse Radiology - Nurse Women's Health - Ambulatory Nurse

### Work Step [19434]

- Description: Complete a Pre Anesthesia Evaluation PowerNote if not already done by Anesthesia
- Comments: Follow up: Can Nurses complete this Pre Anesthesia Evaluation PowerNote? Or is this for Anes/AA only?

### Work Step [19363]

Description: Navigate to Perioperative Workflow MPage and review documented content with the patient.

### Work Step [19364]

Description: Is the content in alignment with your assessment findings?

### Work Step [19359]

Description: Initiate ANES Intraoperative Phase of PowerPlan orders for Procedural Sedation if applicable

### Work Step [19377]

Description: Are there any Medical Directives to be utilized during this case?

### Work Step [19202]

Description: In the procedure room, open record in anesthesia module and associate monitors Method: Anesthesia Module

Comments: \*\*\* Ensure that you are logged into PowerChart with your log-in\*\*\*

Medications given will be documented as administered by whoever is logged into the system.

### Work Step [19144]

- Description: Document Anesthesia and Sedation Monitor (AA/RN) as Personnel and open the Procedural Sedation macro
  - Method: Anesthesia Module
- Comments: Anesthesia would be assigned the role of 'Supervising Physician' to account for any requirements for Supervisor Signature required

Cerner Workflow ID: 158 (v. 12.0) Client Workflow ID: 1114

Last updated by Kristen Boichuk (Doan), Apr 08, 2024 10:51am (UTC -4 hours)

# Work Step [19311]

Description: Execute Procedural Sedation macro as patient enters the room Method: Anesthesia Module

## Work Step [19396]

Description: Document the Cardiac Rhythm Interpretation by clicking on the time in the Anes-ECG data line and entering the interpretation

Comments: This should be done Q5min per policy and procedure.

# Work Step [19100]

Description: Scan medications and Document medication administration as needed in the anesthesia module

Method: Anesthesia Module

## Work Step [19392]

Description: Complete Sedation Assessments (RAMSAY) as appropriate while monitoring and assessing patient (min Q5min)

### Work Step [19336]

Description: Complete sedation record, including the "Sedation Medications" action Method: Anesthesia Module

### Work Step [19394]

Description: Discuss early termination of the procedure if recommended maximums are being approached

### Work Step [19445]

Description: Does another provider need to take over as the Monitor? (i.e. Anesthesia relieving for breaks?)

### Work Step [19400]

Description: Does the patient meet criteria for transfer to Recovery area? (i.e.RSS </equal to 2)

### Work Step [19424]

Description: If Recovery is ready to accept the patient, discontinue the ANES Intraoperative Phase Orders

Cerner Workflow ID: 158 (v. 12.0) Client Workflow ID: 1114

Oct 11, 2024

### Work Step [19405]

Description: Initiate transport for the patient to Phase II Recovery (Day Surgery) Comments: TOA is generally the written documentation.

### Work Step [19307]

Description: Sign and Finalize the sedation record Method: Anesthesia Module

#### **System** [19309]

Description: Medication orders are created with the Proceduralist as the ordering physician

### Work Step [19368]

Description: Find the Pre Procedure Checklist, select modify, update and sign.

### Work Step [19380]

Description: Access PowerChart and create the order for the Medical Directive populating the Medical Directive Number

#### **System** [19300]

Description: Vital Signs begin to flow into the record automatically

### Work Step [19448]

- Description: "Suspend Record" Tap Out, have the next user "Tap In" and immediately open the record.
- Comments: Medications administered will be documented as given by the provider logged in\*

#### **Off Page Reference** [19443]

Workflow Link: Perioperative - Phase II Recovery/Depart (incl. Endo/APU)

### System [19327]

Description: Medication administration and vital signs post to patient's chart

Comments: These medications will post to the MAR, in the discontinued section, with "ANES" suffix to indicated that the medications were documented through the anesthesia module.

### Swim Lane:

Role(s): Procedural Assistant (RN, RPN, RT) [Custom] Department(s):

Cerner Workflow ID: 158 (v. 12.0) Client Workflow ID: 1114

Last updated by Kristen Boichuk (Doan), Apr 08, 2024 10:51am (UTC -4 hours)

Security Position(s):

## **Off Page Reference** [19441]

Workflow Link: Perioperative - Intraop/Intraprocedure

### Work Step [19423]

Description: Assist the monitor and/or operator (Anesthesia) as needed
