## Future State: Perioperative - Request Scheduled Date Change Prior to Day of Surgery

Cerner Workflow ID: 36362 (v. 2.0) Client Workflow ID: 117

Last updated by Kristen Boichuk (Doan), May 03, 2024 4:03pm (UTC -4 hours)

Department(s):  
Security Position(s):

**Start/Stop [4]**

Description: Date change required to scheduled perioperative appointment

**Work Step [13]**

Description: Reschedule the case and update the Requested Date appropriately in ATC

Method: Novari ATC

**Swim Lane:**

Role(s): Scheduler

Department(s):

Security Position(s): Perioperative - Scheduler

**Work Step [17]**

Description: Monitor ATC Care Venue for date changes

Method: Novari ATC

**Work Step [33]**

Description: Cancel procedure within PowerChart

Method: PowerChart

**Decision [5]**

Description: Is the scheduled appointment reschedule approved per policy?

Comments: If the requested change needs to be addressed quickly, it's best to call the scheduling office to ensure a timely response; however, each facility should document a policy regarding what that timeframe should be, based on scheduling office staffing and the typical turnaround time on addressing updates to the Request List.

**Start/Stop [22]**

Description: Complete the Reschedule request appropriately

Method: Scheduling Appointment Book

**System [36]**

Description: Sends ATC updated Cancellation to be rescheduled at a later date

Method: Novari ATC

## Future State: Perioperative - Request Scheduled Date Change Prior to Day of Surgery

Cerner Workflow ID: 36362 (v. 2.0) Client Workflow ID: 117

Last updated by Kristen Boichuk (Doan), May 03, 2024 4:03pm (UTC -4 hours)

Comments: When this case gets resubmitted - a new booking is needed in Cerner.

**Off Page Reference** [37]

Workflow Link: Perioperative - Schedule Elective Appointment (Novari)

Comments: Does not have to be re-entered in ATC - Can keep that first original booking.
