    Description: Review and update Pregnancy History

    Method: MPage

    Comments: This should be done via the Pregnancy History Cloud Component, if available.

    .

Document [372]

    Description: From the Triage/Ante/Labour MPage, Add Pregnancy. Complete required fields

    Method: MPage

Work Step [19]

    Description: Open patient's chart from Tracking Board and navigate to Women and Babies View

Decision [370]

    Description: Does this patient have a confirmed positive pregnancy?

Niagara Health System   Oct 11, 2024

Future State: Women and Babies - Acute - Early Pregnancy Assessment Clinic (EPAC)

Cerner Workflow ID: 8414 (v. 21.0)   Client Workflow ID: 1261   Last updated by Cynthia Skubel, Aug 08, 2024 4:14pm (UTC -4 hours)

      Comments: Confirmation of pregnancy includes, but not limited to, positive home pregnancy test or elevated beta HCG

Work Step [7]

Description: Escort patient to room

Comments: This could be a private room in which the patient will stay or the documentation room for quick assessment (including vital signs, history, and review bloodwork and/or available results).

Based on census,
if patient stable, may return to waiting room or remain in room.

Document [439]

Description: Utilize Adult iView band documentation as applicable.

Work Step [415]

Description: Provider at Bedside

Comments: Provider reviews US report and Lab results and determines plan of care. Confirms necessary follow up if applicable.

Decision [418]

Description: Will the patient be admitted or discharged?

Off Page Reference [419]

Workflow Link: Women and Babies - Acute - Outpatient Discharge

Decision [443]

Description: Will patient be admitted or discharged?

Off Page Reference [422]

Workflow Link: Women and Babies - Communication and Handoff Process

Off Page Reference [423]

Workflow Link: Women and Babies - Acute - OB Internal Transfer

Off Page Reference [424]

Workflow Link: INA - Inpatient Nursing - Admission Process

Swim Lane:

Future State: Women and Babies - Acute - Early Pregnancy Assessment Clinic (EPAC)

Role(s): Women and Babies Provider [Custom]
Department(s):
Security Position(s): Physician - Women's Health

Work Step [37]

Description: Provider asseses patient

Comments: Based on patient presentation, MRP may have OB Nurse assess patient on their behalf.

Work Step [40]

Description: Access patient chart from Tracking Board

Work Step [44]

Description: Review Triage/Ante/Labour tab in the Women's Health View

Work Step [114]

Description: Review message center and place any applicable orders

Comments: Note: If nursing triage protocol exists for nurse to place Triage orders, consider adding a step to the OB Nurse workflow to place the PSO Outpatient in a Bed order as well as the Triage orders. The PSO order should be placed as early in the workflow as possible when the patient is being admitted.

Off Page Reference [340]

Workflow Link: Phys Track- Prescriber Workflow - Prescriber Cosign

Work Step [79]

Description: Document patient assessment in Dynamic Doc note

Comments: Academic Considerations: The note status for Resident and Medical Student notes can be based on organizational policy and state regulation. Please reference "Provider Workflow - Resident and Mid-Level Documentation"

Completion of provider orders and note required to charge appropriately.

There is no specific OB Triage Dynamic
Doc note template but the Labor Progress note template could be used and renamed for OB Triage.

Cerner Workflow ID: **8414** (v. 21.0)   Client Workflow ID: **1261**   Last updated by Cynthia Skubel, Aug 08, 2024 4:14pm (UTC -4 hours)

Decision [51]

Description: Will the patient be admitted or discharged?

Step Impact: Financial

Comments: If patient is being transferred to Emergency department from OB Triage, it is recommended to discharge the Outpatient in a Bed encounter and re-register via the ED Quick Registration conversation. This will ensure the Emergency Encounter Type is applied.
